Greenland Gill Campbell, Alistair Campbell, 2024-07-07 New from Bradt Greenland is the first standalone travel guidebook to the country from a mainstream publisher Targeted at independent travellers but equally serving those visiting on organised tours or cruises this guide combines essential information such as getting around on an island lacking roads connecting the major settlements with advice on what to see and do and where to stay and eat Every chapter is infused with Greenland's remarkable combination of pristine nature and traditional culture which sets it apart from Arctic neighbours and which makes a trip so rewarding The world's largest island but also part of the Kingdom of Denmark Greenland sits near the top of the world a vast expanse of white in a planet full of green blue and brown Today's visitors relish opportunities for close encounters with immense icebergs and glaciers The epic scenery provides the backdrop to the numerous activities on offer from visiting the Arctic's largest ice sheet or taking to the sea in search of 13 species of whale and from hiking the 160 km long Arctic Circle Trail to seeking out musk oxen walrus and the rare polar bear Greenland in winter is another world when long polar nights are brightened by the mesmerising northern lights and the reflections of the snow It remains a snowy paradise until spring the best time to travel by dog sled or snowmobile across the frozen tundra To relax afterwards why not close your trip with a few days of nature inspired art eclectic culture and fine dining in the diminutive capital Nuuk Greenland has always been a destination for pioneering explorers be they the Inuit who arrived from the west the Norsemen who came from the east or mariners seeking the Northwest Passage Part of the attraction for today's visitors is to experience an element of the challenges they faced Although travel within Greenland can be tricky given limited infrastructure and often adverse weather conditions it can also be a remarkably easy place in which to travel with the right planning a flexible attitude and the right advice which is precisely where Bradt's Greenland comes in Let it be your guide to a truly staggering country      *Teachers Monographs*, 1922      **History of the Public School System of California** John Swett, 1876      The Saturday Evening Post, 1929      *Oil Field Engineering ...*, 1921      Genealogical chronology of the world before Christ, ed. by K.A.
