over QUIC advanced security features and hotpatching with Azure Arc. Additionally, numerous questions and answers at the end of each chapter help you test your knowledge of the concepts covered. By the end of this book, you'll be fully prepared to ensure server stability, security, and performance and to pass the Microsoft AZ-800 Administering Windows Server Hybrid Core Infrastructure exam with confidence.

What you will learn: Manage directory services effectively, including setting up and maintaining AD DS roles; implement and troubleshoot group policies to enforce consistent configurations across the network; utilize virtualization techniques to optimize server resources and enhance scalability; maintain server uptime and reliability through efficient hotpatching practices for applying updates; prepare for the AZ-800 certification exam with exam preparation strategies, practical tips, and chapter-end questions and answers to test your knowledge and track your progress.

Who this book is for: This book is for IT professionals such as system administrators, network engineers, and IT managers who are starting their journey in Windows Server 2025 administration. It is also suitable for individuals looking to update their knowledge with the latest tools and features in Windows Server 2025. Whether you're responsible for managing server infrastructure, ensuring network security, or optimizing server performance, this book will provide you with the essential skills and knowledge to excel in your role.

Digital Righteousness Byron Love, 2026-03-13

Artificial intelligence is reshaping jobs, healthcare, education, finance, and justice. But what happens when the systems shaping our future fail to recognize our humanity? *Digital Righteousness* confronts one of the most urgent questions of our time: How will artificial intelligence impact Black communities across the globe, and who will shape the outcome? Written by retired Air Force computer and information systems officer Byron A. Love, a technology leader with more than 35 years of experience in IT, cybersecurity, governance, and artificial intelligence, this book bridges the gap between technical insight, public policy, and Christian ethics. It offers a powerful, accessible examination of how algorithmic bias, digital exclusion, and structural inequality are being encoded into modern AI systems and what we can do about it. From biased hiring algorithms and flawed facial recognition systems to disparities in healthcare technology and digital access, *Digital Righteousness* explores how the legacy of historical injustice intersects with emerging technologies. Drawing on real-world examples, global case studies, and clear explanations of artificial intelligence, machine learning, generative AI, and AI governance, this book equips readers to understand both the risks and the opportunities of our AI-driven world. While many books examine technology ethics or algorithmic bias, few center the lived realities of the African diaspora or integrate faith-based moral reasoning into the conversation. *Digital Righteousness* uniquely combines technology, policy, workforce development, and Christian ethical reflection to create a roadmap for human-centered technology that serves dignity, equity, and justice. This book is for Emerging Black tech professionals seeking to build careers in AI, cybersecurity, and data science; Educators, HBCU faculty, and workforce development leaders preparing students for an AI economy; Policy makers, civil rights advocates, and AI governance professionals shaping responsible technology frameworks; Faith leaders and community advocates concerned about digital justice. More than analysis, *Digital Righteousness*

is a call to action It challenges readers to move beyond fear of artificial intelligence and instead become informed participants in its creation and oversight If AI shapes the future we must shape AI Technology should not automate injustice It should advance opportunity The future of digital equity begins now **Annual Editions** Chris Boyatzis, Ellen N. Junn, 2002-11-27 **Annual Editions** Karen L. Freiberg, 2000-11 This annually updated reader is a compilation of carefully selected articles from magazines newspapers and journals Topics covered include genetic and parental influences on development development during infancy and early childhood and many others This title is supported by Dushkin Online www.dushkin.com online a student Web site that provides study support and tools and links to related Web sites *Data Sources*, 2000 **Country Life**, 2004 **Country Life Illustrated**, 2004 **Travel Holiday**, 1983-07 *Iron Trade and Western Machinist*, 1963 *Steel*, 1963 **Chemical Week**, 1963 **PC Magazine**, 1997-06 *Complete Book of Colleges, 2007 Edition* Princeton Review, 2006-08-08 Lists more than 1 600 colleges and universities and provides information about admissions and academic programs *Private Eye*, 1981
