Bioremediation as a Greener Solution for Marine Plastic Pollutants Alok Prasad Das, Sudeshna Dey, 2026-01-23 Bioremediation as a Greener Solution for Marine Plastic Pollutants provides a comprehensive understanding of marine microplastic pollution while also exploring bioremediation as a sustainable solution The book covers essential knowledge about marine microplastics examines various bioremediation techniques and highlights successful case studies Authored by various experts from around the world this book discusses the benefits challenges and future prospects of integrating bioremediation into sustainable practices It emphasizes the collaborative efforts required for widespread adoption including policy development public awareness and continuous research Designed to be accessible to researchers and students interested in addressing the increasing threat of marine microplastic pollution this guide is a valuable resource for those committed to environmental sustainability Includes over 20 global case studies that highlight the innovative use of bioremediation strategies Contains up to date information on

bioremediation technologies from design to recycling and resource recovery Offers a user friendly guidebook providing clear instructions and guidance for early career researchers and students

Issues of Sustainability in AI and New-Age Thematic Investing Irfan, Mohammad,Hussainey, Khaled,Bukhari, Syed Ahmad Chan,Nam, Yunyoung,2024-03-18 In the face of an evolving global landscape characterized by climate change and a pressing need for sustainable development the finance sector remains at a critical juncture Traditional financial models struggle to address the challenges posed by the transition to a low carbon economy and unlocking private investments for sustainable initiatives remains an uphill battle The integration of Artificial Intelligence AI and Machine Learning ML into financial systems presents both promise and peril with the potential to reshape the industry while posing unprecedented challenges Issues of Sustainability in AI and New Age Thematic Investing is a beacon of insight and solutions in the realm of green finance and AI ML integration Geared toward academic scholars policymakers and industry experts this book serves as a comprehensive guide to navigating the intricacies of sustainable development and energy transition By highlighting the pivotal role of AI ML in green finance the publication bridges the gap between theoretical understanding and practical implementation offering actionable solutions for unlocking private investments

Management Practices, Solutions and Models for Sustainable Business Shrikaant Kulkarni,Radhakrishna Batule,2025-11-18 This comprehensive guide explores cutting edge strategies for integrating sustainability into core business operations It provides actionable insights into eco friendly management practices innovative business models and effective solutions for long term profitability and environmental stewardship Covering key topics such as circular economy principles sustainable supply chains green technologies and corporate social responsibility this book empowers business leaders entrepreneurs and academics to drive positive change Perfect for courses in sustainable business and professional development it serves as a vital resource for building resilient future ready organizations

Sustainable Energy Storage in the Scope of Circular Economy Carlos Miguel Costa,Renato Goncalves,Senentxu Lanceros-Mendez,2023-03-27 Sustainable Energy Storage in the Scope of Circular Economy Comprehensive resource reviewing recent developments in the design and application of energy storage devices Sustainable Energy Storage in the Scope of Circular Economy reviews the recent developments in energy storage devices based on sustainable materials within the framework of the circular economy addressing the sustainable design and application of energy storage devices with consideration of the key advantages and remaining challenges in this rapidly evolving research field Topics covered include Sustainable materials for batteries and fuel cell devices Multifunctional sustainable materials for energy storage Energy storage devices in the scope of the Internet of Things Sustainable energy storage devices and device design for sensors and actuators Waste prevention for energy storage devices based on second life and recycling procedures With detailed information on today s most effective energy storage devices Sustainable Energy Storage in the Scope of Circular Economy is a key resource for academic researchers industrial scientists and engineers and students in related programs of study who

wish to understand the state of the art in this field [The Waste-Free World](#) Ron Gonen,2021-04-06 The next revolution in business will provide for a sustainable future from founder CEO and circular economy expert Ron Gonen Our take make waste economy has cost consumers and taxpayers billions while cheating us out of a habitable planet But it doesn't have to be this way The Waste Free World makes a persuasive forward looking case for a circular economic model a closed loop system that wastes no natural resources Entrepreneur CEO and sustainability expert Ron Gonen argues that circularity is not only crucial for the planet but holds immense business opportunity As the founder of an investment firm focused on the circular economy Gonen reveals brilliant innovations emerging worldwide smart packaging robotics that optimize recycling nutrient rich fabrics technologies that convert food waste into energy for your home and many more Drawing on his experience in technology business and city government and interviews with leading entrepreneurs and top companies he introduces a vital and growing movement The Waste Free World invites us all to take part in a sustainable and prosperous future where companies foster innovation investors recognize long term value creation and consumers can align their values with the products they buy

Smart Services Summit Shaun West,Jürg Meierhofer,Utpal Mangla,2022-04-26 This book provides state of the art descriptions of smart service innovations in the industry supported by novel scientific approaches It gathers findings and insights presented at the fourth Smart Services Summit held in Zurich Switzerland in October 2021 which primarily focused on how smart services have enabled companies to adapt during and to the COVID 19 pandemic The book includes examples of remote and collaborative working that actively involve customers in service processes requiring a change in mindset for more traditional firms Moreover it explores how services can be delivered faster and more affordable with the aid of new technologies and in collaboration with the customers leading to new value propositions and business models and thus an evolution of smart services Given its scope the book offers an essential guide for practitioners and advanced students alike

Emerging Trends and Techniques in Biofuel Production from Agricultural Waste Pardeep Singh,2024-02-23 This edited book focuses primarily on biofuel production potential in agricultural waste such as biogas generation biohydrogen production and research trends on managing or converting agricultural waste to biofuel This book also draws attention to technological equipment generated biofuels from agricultural waste through various biological and chemical processes and the multiple factors responsible for biofuels from agricultural waste generation Agriculture waste can be a renewable source of lignocellulosic feedstock for value added products Considering the non replaceable fossil fuel reservoir the exponentially growing human population urges an immediate search for alternative renewable energies To confront the upcoming energy crisis lignocellulosic agricultural waste is expected to be a sustainable renewable low cost resource to derive bioenergy because of its high availability This book will be of interest to researchers scientists and scholars working on agriculture waste management and biogas production The book also serves as additional reading material for Industrial professionals master s and degree students policymakers and NGOs working on biofuels and

sustainable energy production **Advanced Biofuels and Circular Economy** Rahil Akhtar Usmani, Mudasir A. Dar, Akram Ahmad Khan, 2025-07-23 This book offers a holistic analysis of the role of advanced biofuels within the context of the circular economy. It provides a multidisciplinary perspective on cutting edge developments in biofuel technology including their sustainability impact, techno-economic and socio-economic considerations. This edited collection merges insights from environmental science, economics and sustainability studies to provide a comprehensive understanding of the current landscape of advanced biofuels. Each chapter explores the complex interplay of the circular economy with biotechnological advancement, analysing diverse aspects including biofuel production, impact on local communities, their role in sustainable development and job creation, role in long term economic growth and tackling climate challenges. The book also offers practical guidance on assessing socio-economic impacts and navigating the regulatory landscape. This is a valuable resource for researchers in the bioeconomy, circular economy, agricultural and environmental economics as well as policymakers looking to make informed decisions and contribute to sustainable practices. **The Circular Economy** Mika

Sillanpää, Chaker Ncibi, 2019-08-01 *The Circular Economy Case Studies about the Transition from the Linear Economy* explores examples of the circular economy in action. Unlike other books that provide narrow perceptions of wide-ranging and highly interconnected paradigms such as supply chains, recycling, businesses models and waste management, this book provides a comprehensive overview of the circular economy from various perspectives. Its unique insights into the approaches, methods and tools that enable people to make the transformation to a circular economy show how recent research trends and attitudes have moved beyond the call to arms approach to a level of maturity that requires sound scientific thinking.

Circular of Information University of Illinois. Library School, 1898 *Intelligence-Driven Circular Economy* Azzam Hannon, Abdullah Mahmood, 2025-07-23 The book provides a groundbreaking examination of how artificial intelligence (AI) can be utilized to contribute towards a sustainable future. This book delves into the intricate relationship between technology, economy and society, providing a comprehensive framework for understanding the circular economy as a holistic approach to sustainable development. This book aims to offer a comprehensive reference work and coverage of the role of Artificial Intelligence and other advanced digital technologies in the circular economy and resource regeneration towards achieving the United Nations' 17 sustainable development goals. This book is mainly aimed at academics and researchers who will find in it the knowledge of the support of technology and its contribution to the circular economy challenges, applications and solutions to improve. Moreover, this book is aimed at management, industry experts, governments and policymakers whereby the book contains helpful examples from practice and applied recommendations. This book is for anyone interested in shaping a sustainable and resilient future. It provides diverse topics for raising awareness about the power of technology in promoting social well-being and economic prosperity. Industry 4.0 and Circular Economy Antonis Mavropoulos, Anders Waage Nilsen, 2020-08-17 How the marriage of Industry 4.0 and the Circular Economy can radically transform waste management
