

A woman with blonde hair, wearing a white long-sleeved top and grey pants, is sitting on a light-colored couch. She is holding a black pen in her right hand and writing in a black journal that is open on her lap. Her left hand is resting on the right page of the journal. The background is a bright, slightly blurred indoor setting.

Mental Health for Beginners Celia Mae Stockworth, Mental health encompasses our emotional psychological and social well being It

affects how we think feel and act as we navigate through life Just as we care for our physical health through exercise proper nutrition and medical checkups our mental health requires attention understanding and maintenance Mental health is not simply the absence of mental illness but rather a state of well being where individuals can cope with normal stresses work productively and contribute to their communities The World Health Organization defines mental health as a state of well being in which every individual realizes their potential can cope with the normal stresses of life can work productively and fruitfully and is able to make a contribution to their community This definition emphasizes that mental health is about thriving not just surviving It s about feeling good about yourself maintaining healthy relationships and having the resilience to bounce back from life s inevitable challenges Mental health exists on a spectrum We all have mental health just as we all have physical health Sometimes we feel mentally strong and resilient other times we may struggle with stress anxiety or sadness These fluctuations are normal parts of the human experience However when these struggles persist and significantly interfere with our daily functioning relationships or quality of life it may indicate a mental health condition that could benefit from professional support
