Concepts of Soul and Spirit in Jung and Spiritual Traditions Jeanette R. Graham,1981 Exploring Spirituality from a Post-Jungian Perspective Ruth Williams,2023-03-03 Derived from Ruth Williams more than 40 year immersion in spiritual practice as well as her clinical experience as a Jungian analyst this thought provoking volume explores the nature of spiritual paths and trajectories in practical ways incorporating personal anecdote and ground breaking academic research and providing a window into how Jungian practitioners work with soul and spirit Williams explores the nature of being a human using the Yiddish idea of a person being a mensch which means being a decent human being having humanity and living ethically with integrity The idea of grace is the thread that runs through the book the mystery that binds things together and makes life meaningful purposeful potentially joyful and spiritually fulfilling Williams sees grace as being that which underpins and lies behind synchronicity and divinatory practices and as a force by which we can learn to be guided Rooted in clinical work Exploring Spirituality from a Post Jungian Perspective is fascinating reading for Jungian analysts therapists and academics as well as for general readers interested in a spiritual journey both personally and for clinical purposes

The Spirit of Man in Art and Literature C.G. Jung,2014-12-18 First published in 1967 There are different ways of looking at the achievements of outstanding personalities In reading this book the reader will be in touch with some of Jung s best insights into artistic and literary creation The essays are on Paracelsus Freud Richard Wilhelm Picasso and Joyce s Ulysses There are also two chapters on poetry and literature

Jung's Ethics Dan Merkur,2017-05-12 This volume presents the first organized study of Jung s ethics Drawing on direct quotes from all of his collected works interviews and seminars psychoanalyst and religious scholar Dan Merkur provides a compendium of Jung s thoughts on various topics and themes that comprise his theoretical corpus from the personal unconscious repression dreams good and evil and the shadow to collective phenomena such as the archetypes synchronicity the psychoid the paranormal God and the Self as well as his contributions to clinical method and technique including active imagination inner dialogue and the process of individuation and consciousness expansion The interconnecting thread in Merkur s approach to the subject matter is to read Jung s work through an ethical lens What comes to light is how Merkur systematically portrays Jung as a moralist but also as a complex thinker who situates the human being as an instinctual animal struggling with internal conflict and naturalized sin Merkur exposes the tension and development in Jung s thinking by exploring his innovative clinical technical methods and experimentation such as through active

imagination inner dialogue and expressive therapies hence underscoring unconscious creativity in dreaming symbol formation engaging the paranormal and artistic productions leading to expansions of consciousness which becomes a necessary part of individuation or the working through process in pursuit of self actualization and wholeness In the end we are offered a unique presentation of Jung s core theoretical and clinical ideas centering on an ethical fulcrum whereby his moral psychology leads to a cure of souls Jung s Ethics will be of interest to academics scholars researchers and practitioners in the fields of Jungian studies and analytical psychology ethics moral psychology philosophy religious studies and mental health professionals focusing on the integration of humanities and psychoanalysis

The Darkening Spirit David Tacey,2013-06-26 The twenty first century could well be Jung s century just as the twentieth century was Freud s Jung predicted the demise of secular humanism and claimed we would search for alternatives to science atheism and reason We would experience a new and even unfashionable appetite for the sacred Educated people however would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettling of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader

The Archetypes in Angela Carter's novels Mohammad El Sayed,2019-10-04 Doctoral Thesis Dissertation from the year 2019 in the subject Didactics for the subject English Literature Works grade Excellent

Cairo University course English Literature language English abstract The thesis discusses some of the archetypal themes characters and plots in selected novels by Angela Carter guided by the ideas of the Swiss Psychiatrist Carl Gustav Jung The focus is on the novels *The Passion of New Eve* *Heroes and Villains* *The Sadeian Woman* *Nights at the Circus* and *The Magic Toyshop* Angela Carter both conveys and challenges the traditional archetype within her multiple works of literature Her work is the subject of literary attention and critique specifically due to its approach to challenging male patriarchy and her choice of brusque language as her form of expression Her novels present rather unconventional women and heroes journeys that are far from typical Her shift from conforming to the typical offers an interesting dimension from which to assess her understanding of archetypes and the deliberate ways through which she destroys them through her writing

The Jungian Persona in Shakespeare's works** Aleksandra Vujovic, 2022-01-28 Document from the year 2021 in the subject English Language and Literature Studies Literature grade A language English abstract This work deals with various characters from Shakespeare's works and analyses them according to the Jungian Art In the individuation process Shakespeare sides with Jung related to the role and importance of the concept of free will None of Shakespeare's heroes follow their fate as an externally imposed inevitable chain of events which lead to their doom Rather it is their lack of self knowledge and self control as a sign of their failed individuation that causes their tragic ends These characters embody a soul which is in many ways great and noble but which has a fatal flaw which plays the role of fate In Jungian terms fate can be interpreted as unrecognized psychological processes or archetypes that are not dealt with which therefore influence or lead the actions of the ego conscience Shakespeare explores in depth these flaws to which the tragic hero after an inner conflict fails to attempt to deal with the archetypal psychic forces The result is that the tragic hero loses his soul the link to the archetype of Self as both the motivator and the goal of the individuation process In that regard when we examine for example Othello it is obvious that the cause of his crisis and ruin is psychological and that his intellectual confusion is not the cause but rather the result of the chaos in his psyche In Jungian terms Othello as the ego consciousness struggles and fails to understand and establish a functioning relationship with both Iago and Desdemona respectively seen as his shadow and anima The importance of dealing with these archetypes as a means of reaching psychic balance as one of the indicators of a successfully ongoing individuation process is described from a Jungian point of view
