**Union with the Resurrected Christ** G. K. Beale, 2023-04-25 Southwestern Journal of Theology 2023 Book Award  
Biblical Studies Union with Christ is an important theological and practical concept that has received considerable attention in recent years But not much consideration has been given to this union and its benefits in light of Jesus's resurrection and ascension In this follow up to his monumental A New Testament Biblical Theology G K Beale summarizes and expands on that work with an eye to fleshing out the theological implications of the resurrection and ascension Beale explains that Christ's resurrection and ascension place him as the beginning of the eschatological fulfillment of the new creational kingdom Specifically Christ is the fulfillment of a cluster of nineteen Old Testament end time expectations These eschatological realities attributed to Christ are imprinted on believers through their dynamic union and identification with him Through careful exegesis Beale explores these facets and deliberately draws out important practical applications for everyday Christian living in the overlap of the old creation and the new Students of the New Testament will benefit from this important contribution to New Testament theology

Transformed by the Spirit Craig Prather, 2020-11-30 Transformed by the Spirit lays out the case for Christians to develop a close relationship with the Father Son and Holy Spirit through the various spiritual disciplines and through the power of the Holy Spirit

**Being Missional, Becoming Missional** Banseok Cho, 2021-12-10 This book explores the theme of the missional conversion of the church namely how the church is transformed toward its missionary vocation from a biblical theological perspective The purpose of this book is to find biblically grounded theologically sound and practically applicable principles helpful for the church which seeks to be continuously shaped into a missional community which authentically and fully participates in God's mission today The biblical theological findings on how the triune God in the biblical narrative shapes the people of God toward their missionary vocation demonstrates first that in Scripture the missional conversion of the church is primarily the consequence of its continuous encounter with the triune God and second that this divine human encounter for the missional conversion of the church is ineluctable in view of the ongoing tension between the missional faithfulness of God in fulfilling the missionary vocation of the church on the one hand and the missional failure of the church in its missionary vocation on the other hand

The Lost Texts of Confucius' Grandson: Guodian, Zisi, and Beyond Kuan-yun Huang, The Guodian manuscripts are a cache of literary and philosophical texts from the fourth century BCE discovered in a Warring States period tomb in China's Hubei Province Through detailed decipherment and textual analysis Kuan-yun Huang investigates the historical and philosophical contexts of these texts and convincingly proposes their association with Zisi the grandson of Confucius Huang not only offers an in-depth portrait of this famous scion from excavated texts and transmitted literary records but also reveals the connection of the Guodian texts with early intellectual tradition in China including the teachings of Xunzi Mencius Confucius and the legendary Laozi as well as the effort of rewriting that transformed Zisi's original teachings into a

conformist line of thinking which defined and constituted the Confucian tradition of a later time In Kuan yun Huang s *The Lost Texts of Confucius* Grandson the shadowy figure of Zisi comes to life as an antinomian thinker whose works fill the lacuna between Confucius and Mencius What is most compelling about this book is its insistence that in scholarship we must respect the interpretive context The new putative Zisi materials have to be read in such a way that they are correlated with and situated clearly within what Huang calls the literary record Huang s synoptic understanding of the literature allows for much abduction in his presentation a kind of academic sleuthing in his best efforts to connect the dots While an exciting read for those scholars who know the texts and specialize in ancient philosophical literature at the same time the story it tells will be of interest to all scholars who work in the field of Chinese studies Roger T Ames Humanities Chair Professor Peking University Huang carefully explicates what the newly discovered manuscripts teach us about fate moral cultivation familial love and obligation and service in government as well as other concepts that were originally meant to provide social order in the Warring States kingdoms during the time of Zisi and the generations of thinkers subsequent to him Through close textual analysis and with each explanation of these ideas Huang shows that we must shake ourselves loose from earlier assumptions about their significance and embrace what the recently recovered sources tell us Jeffrey Riegel Professor Emeritus University of California Berkeley The Guodian corpus has transformed our understanding of early Chinese thought Huang does a masterful job of situating these texts in their historical and philosophical context relying on the most current scholarly literature as well as insights gained from more recent discoveries all in a very accessible style Highly recommended Edward Slingerland Professor of Philosophy University of British Columbia

*Community-Forming Power* Matthias Wenk, 2004-10-13 In past years the controversy over Luke s concept of the Spirit has centred on the ethical dimension of his pneumatology *Community Forming Power* sets out to address the issue by assessing the Lukan writings in the light of evidence from Second Temple Judaism and in applying speech act theory to prophetic utterances Wenk argues that the Spirit s role in prophecy cannot be limited to the content of the prophetic speech stripping it artificially from the intention behind it He further argues that the anointed church continues the liberating work of the anointed messiah in embracing the marginalized and thus is instrumental in realizing good news for the poor

**Augustine and Nicene Theology** Michel Rene Barnes, 2023-02-03 This book draws together a collection of thirteen published and unpublished articles which together constitute a new reading of the character and development of Latin Trinitarian theology in the fourth and fifth centuries The focus of the essays is on Augustine of Hippo 354 430 CE but Augustine is treated here as an inheritor of earlier Latin tradition Many of the figures of that tradition here receive a new interpretation particularly Marius Victorinus Augustine himself is explored from many angles at every turn the developments in his theology are shown to be a response to the anti-Nicene theologies of the period The beginning of the book discusses the manner in which modern systematic theology has engaged Augustine only through a simplified version of late nineteenth century categories In conclusion the broader question

of how far modern theology can actually engage Patristic theology is explored at length
