Spirit Bird Journey:

Spirit Bird Journey Sarah M. Nelson,1999 **Spirit Bird Journey** Sarah M. Nelson,1999 Sarah Nelson's teaching novel follows Clara a Korean American archaeologist to an excavation in her ancestral homeland addressing issues of gender shamanism ethnic identity and Neolithic culture for college students

Shamans, Queens, and Figurines Sarah Milledge Nelson,2016-07-01 Sarah Nelson recognized as one of the key figures in studying gender in the ancient world and women in archaeology brings together much of the work she has done over three decades into a single volume The book covers her theoretical contributions her extensive studies of gender in the archaeology of East Asia and her literary work on the subject Included with the selections of her writing taken from diverse articles and books published in a variety of places is an illuminating commentary about the development of her professional and personal understanding of how gender plays out in ancient societies and modern universities and her current thinking on both topics

Object Stories Steve Brown,Anne Clarke,Ursula Frederick,2016-06-16 Archaeologists are synonymous with artifacts With artifacts we construct stories concerning past lives and livelihoods yet we rarely write of deeply personal encounters or of the way the lives of objects and our lives become enmeshed In this volume 23 archaeologists each tell an intimate story of their experience and entanglement with an evocative artifact Artifacts range from a New Britain obsidian tool to an abandoned Viking toy boat the marble finger of a classical Greek statue and ordinary pottery fragments from Roman England and Polynesia Other tales cover contemporary objects including a toothpick bell door and the blueprint for a 1970s motorcar These creative stories are self consciously personal they derive from real world encounter viewed through the peculiarities and material intimacy of archaeological practice This text can be used in undergraduate and graduate courses focused on archaeological interpretation and theory as well as on material culture and story telling

Subjects and Narrative in Archaeology Ruth M. Van Dyke,Reinhard Bernbeck,2015-04-03 Seeking to move beyond the customary limits of archaeological prose and representation **Subjects and Narratives in Archaeology** presents archaeology in a variety of nontraditional formats The volume demonstrates that visual art creative nonfiction archaeological fiction video drama and other artistic pursuits have much to offer archaeological interpretation and analysis Chapters in the volume are augmented by narrative poetry paintings dialogues online databases videos audio files and slideshows The work will be available in print and as an enhanced ebook that incorporates and showcases the multimedia elements in archaeological narrative While exploring these new and not so new forms the contributors discuss the boundaries and connections between empirical data and archaeological imagination Both a critique and an experiment **Subjects and Narratives in Archaeology** addresses the goals advantages and difficulties of alternative forms of archaeological representation Exploring the idea that academically sound archaeology can be fun to create and read the book takes a step beyond the boundaries of both traditional archaeology and traditional publishing

The moon of leaves, and other poems Aristo (pseud.),1901 **Korea Now** ,2001-07 **Shamanism and the Origin of**

States Sarah M. Nelson, 2008 Sarah Milledge Nelson's bold thesis is that the development of states in East Asia China Japan Korea was an outgrowth of the leadership in smaller communities guided by shamans Using a mixture of historical documents mythology archaeological data and ethnographic studies of contemporary shamans she builds a case for shamans being the driving force behind the blossoming of complex societies More interesting shamans in East Asia are generally women who used their access to the spirit world to take leadership roles This work challenges traditional interpretations growth of Asian states which is overlaid with later Confucian notions of gender roles Written at a level accessible for undergraduates this concise work will be fascinating reading for those interested in East Asian archaeology politics and society in gender roles and in shamanism Spirits, Shamans, and Stars David L.
