Shore Fishes of Easter Island John E. Randall, Alfredo Cea, 2011-08-31 Easter Island Rapanui is the most remote inhabited island in the Pacific Ocean and the easternmost in Oceania Much has been written on the origin of its first

inhabitants and the enormous stone statues they carved and erected but little exists on the island's biota. Knowing that very few species of fishes had been reported for Easter Island, John Randall went there in 1969 with the support of the National Geographic Society to study the fish fauna. He was joined during revisits in 1988 and 1989 by the island's medical doctor Alfredo Cea. They published the Rapanui names of fishes in 1984. The total number of Easter Island shore fishes to a depth of 200 meters is only 139 species. However, an astounding 21.7 percent are known only from the island, second only to the Hawaiian Islands in the percentage of endemic fishes. Forty-four new species of fishes have been described, of which 25 are in scientific papers by Randall or by Randall and coauthors. *Shore Fishes of Easter Island* puts all of these fishes in one beautifully illustrated book with introductory chapters: Historical Review, Zoogeography, Marine Conservation, Materials and Methods.

Toddlers will love this basket-shaped board book for little hands that can be played with or read for twice the fun. If you loved this, why not try *Where's Spot?* *Spot's First Easter*. Where are the Yellow Chicks? *Spot Goes to the Farm*. *Spot Goes to the Beach*. *Spot Goes to School*.

Sam Hill's Peace Arch Richard Clark, 2005. Standing but a stone's throw from the continent's western shoreline, Samuel Hill, a Quaker devoted to peace and a road builder rolling in wealth, addressed 4,000 celebrants gathered at the United States-Canada border on the Fourth of July, 1915. There they celebrated a century of international peace and the opening of the Pacific Highway, now known simply as the I-5. As the ceremony closed, one member of the crowd stood and proposed construction of an international arch of peace at the site whereon they stood. Hill agreed and acted upon the proposal. Six years later, on September 6, 1921, Samuel Hill stood before a crowd estimated at 10,000 or more and dedicated the International Peace Arch to the cause of world peace. War satisfies neither the victors nor the vanquished, he said, opening his dedicatory address: Perfect peace alone satisfies. For more than 80 years, the Peace Arch has stood between freeway lanes.

where millions of travelers heading south into Washington state or north into British Columbia have seen it as a symbol of peace resident of Blaine Washington whose home is but one block from Peace Arch State Park completed an exhaustive manuscript after fifteen years of research The Peace Arch standing on beautiful international parkland has also been enshrouded with myths and mysteries that Clark has uncovered in the course of his research Peace Arch devotees long forgotten have been restored to remembrances they have long deserved Vital facts long lost have been recovered and given merited recognition The Peace Arch has been the setting of devotion and demonstrations queens and quarrels marriages and marching bands But in its history so notably marked by variation ranging from violence to indifference peace has remained its ongoing theme
