Spring Flowers Spring Frost:

Spring Flowers, Spring Frost Ismail Kadare,2012-04 As spring arrives in the Albanian mountain town of B some strange things are emerging in the thaw Bank robbers strike the National Bank Old terrors are dredged up from the shipwreck of history And ultra explosive state secrets are threatening to flood the entire nation Mark an artist finds the peaceful rhythms of his life turned upside down by ancient love and modern barbarism and by the particular brutality of a country surprised and divided by its new freedom

Plant Phenotyping and Phenomics for Plant Breeding Gustavo A. Lobos,Anyela V. Camargo,Alejandro del Pozo,Jose L. Araus,Rodomi Ortiz,John H. Doonan,2018-08-16 As a consequence of the global climate change both the reduction on yield potential and the available surface area of cultivated species will compromise the production of food needed for a constant growing population There is consensus about the significant gap between world food consumption projected for the coming decades and the expected crop yield improvements which are estimated to be insufficient to meet the demand The complexity of this scenario will challenge breeders to develop cultivars that are better adapted to adverse environmental conditions therefore incorporating a new set of morpho physiological and physico chemical traits a large number of these traits have been found to be linked to heat and drought tolerance Currently the only reasonable way to satisfy all these demands is through acquisition of high dimensional phenotypic data high throughput phenotyping allowing researchers with a holistic comprehension of plant responses or Phenomics Phenomics is still under development This Research Topic aims to be a contribution to the progress of methodologies and analysis to help understand the performance of a genotype in a given environment
