**Springboards to Inquiry** Paige Jaeger, Mary Boyd Ratzer, 2019-07-23 This collection of ideas for lessons provides school librarians with inspiration for meeting the tsunami of new standards dictating change for today's next generation learners. Today's school librarian has less and less time to prepare for instruction. This book delivers lesson plans for the librarian to implement immediately as is or with a little adaptation. Using the new AASL standards and an Information Literacy scope and sequence carefully crafted for K-6 students, the authors package lessons that are both engaging and challenging. This book inspires librarians to go beyond their usual role in literacy promotion and instruction only and moves to preparing students to be inquiry learners by embracing inquiry-based learning. Lessons include the Essential Question, begin with the end in mind, pre and post assessment ideas, technology integration ideas where applicable, reading and research ideas, and collaboration ideas when applicable. AASL Standards and others are noted via an integrated standards checklist while new educational research demonstrates that standards can be met via engaging, collaborative, and interesting lessons modeled throughout the text.

**Springboards for Today's Children** E. Rosalie Cempura, 1993 Education is on everyone's mind. Few are satisfied with what we've got: parents, children, teachers, administrators, legislators, social critics are all complaining. Can we do something spectacularly effective, fast? Cempura's answer is yes. She writes about a monopoly that resists change about common sense reforms that are available tomorrow morning without another survey, without more money. Her very readable book on innovative teaching techniques is poised at the vanguard of a grassroots revolution that will change how we educate the next generation. Capitalizing on the child's insatiable curiosity, Cempura proposes offering primary age school children vast areas of knowledge. She combines the best of whole language, phonics, teaching methods with new ideas of her own in a down-to-earth reading system that she has proved can work. Some of her ideas are depicted in poignant stories of actual classroom situations remembered from her many years as a teacher, administrator. This important book is for parents, teachers, others who are interested in new ideas on how we can educate the youth of tomorrow.

The State of Independence: Key Challenges Facing Private Schools Today David James, Jane Lunn, 2019-04-30 Exploring the most significant challenges facing independent schools today, this book asks leading figures from education, economics, politics, philosophy, and the arts to give their views on how independent schools can adapt to rapidly changing markets which see them scrutinised as never before. Acknowledging the independent sector as a vital and growing part of the global education system, this book explores how schools are to respond to financial, moral, pastoral, and academic challenges and so ensure their own survival and the futures of the children they educate. Breaking a complex and varied field down into ten clear areas of analysis, essays written by leading education experts tackle the key challenges faced by independent schools around the world. Commentators consider the issues created by the upward trend of educating

international students question the extent to which independent schools have echoed societal movements towards greater access diversity and gender fluidity and provide first hand insight into the experiences of staff pupils and parents involved in the everyday functioning and longer term development of the independent sector A health check on this most controversial of sectors this book will enlighten and inform not only those working in independent schools today but anyone interested in education and will make an important contribution to a bigger debate about the place of independent schools at a time of political economic and societal uncertainty
