Green,2014-07-07 A thorough and perceptive portrait of the not so famous expatriates of the City of Light The Wall Street Journal History may remember the

American artists writers and musicians of the Left Bank best but the reality is that there were many more American businessmen socialites manufacturers representatives and lawyers living on the other side of the River Seine Be they newly minted American countesses married to foreigners with impressive titles or American soldiers who had settled in France after World War I with their French wives they provide a new view of the notion of expatriates Historian Nancy L Green introduces us for the first time to a long forgotten part of the American overseas population predecessors to today s expats while exploring the politics of citizenship and the business relationships love lives and wealth or in some cases poverty of Americans who staked their claim to the City of Light The Other Americans in Paris shows that elite migration is a part of migration and that debates over Americanization have deep roots in the twentieth century
