Applications of Rasch Measurement in Learning Environments Research Robert F. Cavanagh,Russell F.
Waugh,2011-11-12 Major advances in creating linear measures in education and the social sciences particularly in regard to
Rasch measurement have occurred in the past 15 years along with major advances in computer power These have been
combined so that the Rasch Unidimensional Measurement Model RUMM and the WINSTEPS computer programs now do
statistical calculations and produce graphical outputs with very fast switching times These programs help researchers
produce unidimensional linear scales from which valid inferences can be made by calculating person measures and item
difficulties on the same linear scale with supporting evidence These computer programs are now available to all Learning
Environment researchers This book includes 13 Learning Environment research papers using Rasch measurement applied at
the forefront of education with an international flavour The contents of the papers relate to 1 high stakes numeracy testing in
Western Australia 2 early English literacy in New South Wales 3 the Indonesian Scholastic Aptitude Test 4 validity in
Learning Environment investigations 5 factors influencing the take up of Physics in Singapore 6 state wide authentic
