Alison Lurie Judie Newman, 2000 Drawing on personal interviews manuscript collections and the author s unpublished writings Judie Newman offers a comprehensive study of the work of Alison Lurie from her early involvement in the Poets Theatre to the AIDS comedy of her most recent novel The Last Resort 1988 In her profound social and intellectual engagement with American Utopianism from its historical origins through such contemporary manifestations as Walter Benjamin s Hollywood the American University feminist theorisations the religious cult and the gay heterotopia and in her intertextual reworkings of folk and fairy tale biography diary novel the International Theme and the classic ghost story Lurie maintains an uncanny ability to serve critical aesthetic purposes within a popular fictional form Semiotic comedies comedies of the sign rather than novels of manners Lurie s fictions place her squarely within a radical American tradition

Through the Lens of the City, During the 1970s the National Endowment for the Arts Photography Surveys granted money to photograph American cities at the bicentennial and years that followed In *Through the Lens of the City* NEA Photography Surveys of the 1970s Mark Rice brings to light this long neglected photographic endeavor From 1976 to 1981 the NEA supported more than seventy projects that examined a wide range of people and places in America Artists involved included such well known photographers as Bruce Davidson Lee Friedlander and Joel Meyerowitz and many photographers who became widely known after their work with the surveys such as Robert Adams Joe Deal Terry Evans and Wendy Ewald Rice argues that the NEA Photographic Surveys drew from two wells a widespread sense of nostalgia and an intense public interest in photography Looking at the works from eight key cities Atlanta Buffalo Durham East Baltimore Galveston Long Beach Los Angeles and Venice the book uncovers marked differences as well as startling similarities in the concerns

manifested by different photographers in far flung places Although the surveys are interesting both for their artistic merits and for their place in the history of American photography they are equally important as a documentation of bicentennial era America and a close examination of American cities A major shift in the ideals of civil engineering and urban planning was underway in the 1970s At the same time ideas and theories about photography were changing along with our notions of what the city could and should be These surveys capturing American cities in a fascinating period of flux show us American photographers matching artistry to subject matter in new and exciting ways Mark Rice is chair of the American studies department at St John Fisher College His work has been published in such periodicals as Exposure Explore and Reviews in American History **City Images** Mary Ann Caws,2013-11-26 First Published in 1991 Knowing any real city and still more so knowing what it is to know a city may be as much about passive as about active experience What we read in the field that field of the city in all its bizarre mixture of culture and nature is bound to determine to some non fictional extent what we know of it what we imagine it could be what we fear it may be or become These essays are meant to be albeit in their critical mode the recountings of knowing something through something else they are the projected imagination through reading of the reading by the self and or others a wide range of each of a city or cities as such of what city knowing or city thinking is The city as stage market and labyrinth variously trafficked and aestheticized dreamt and politicized as passionately written by authors from Cicero to Kazin from Wordsworth Dickens Whitman and Woolf to Williams Ashbery and Bonnefoy is the place the essays play themselves out through architecture and metaphor **The Recursive Frontier** Michael

Docherty,2024-05-01 The Recursive Frontier is an innovative spatial history of both the literature of Los Angeles and the city itself in the mid twentieth century Setting canonical texts alongside underexamined works and sources such as census bulletins and regional planning documents Michael Docherty identifies the American frontier as the defining dynamic of Los Angeles fiction from the 1930s to the 1950s Contrary to the received wisdom that Depression era narratives mourn the frontier s demise Docherty argues that the frontier lives on as a cruel set of rules for survival in urban modernity governing how texts figure race space mobility and masculinity Moving from dancehalls to offices to oil fields and beyond the book provides a richer more diverse picture of LA s literary production during this period as well as a vivid account of LA s cultural and social development as it transformed into the multiethnic megalopolis we know today **City and State** Herbert
