The Categories Of Our Existence:

Conceptual Categories and the Structure of Reality: Theoretical and Empirical Approaches Paul M.W.

Hackett,2019-01-21 In this eBook Conceptual Categories and the Structure of Reality the title very well describes the book's content. Within the book's pages a selection of academics from a variety of human behaviour, human social science, and humanities disciplines write about their research, all of which can be typified by their consideration of how categories are used to structure understanding of phenomena. These authors have considered how reality may be understood through notions such as categorial and structural ontologies, part-whole relationships, mereology, the qualitative, quantitative, and philosophical use of the facet theory approach to research, mapping sentences and declarative mapping, sentence hermeneutics, concepts and constructs, similarities and differences. The resulting collection presents the foregoing conceptual and empirical approaches to knowledge development in general. Chapter 1: Phillips and Wislons review of compositional syntax in bird calls. Chapter 2: neurobehavioral decision systems. Chapter 4: Foxall representations of human psychological processes. Chapter 5: Juan Miguel Lopez Gil, Rosa Gil, Roberto Garcia free associations mirroring and its relation to self and world-related concepts. Chapter 6: Martin Kučka, Radek, Trnka, Ale Antonín, Kubná, Jiříka local knowledge and going beyond the data. Chapter 7: Steven Phillips categorial etiologies of speech sound disorders. Chapter 8: Kelly Farquharson similarity of visual appearance. Chapter 9: Nao Nakatsuji, Hisayasu Ihara, Takeharu Seno, Hiroshi Ito and a consideration of the seminal writing of David Oderberg's on the categorial classification of reality. Chapter 10: Hackett

Human Life is Radical Reality Howard Nelson Tuttle,2005 The twenty-first century needs a new paradigm for philosophy because both Anglo-American and Continental philosophy have ended in analytic sterility and deconstructive nihilism. They have ignored the radical reality of human life which all other realities must presuppose. Three European philosophers in the twentieth century, Dilthey, Heidegger, and Ortega y Gasset began to develop this idea but never before has it been systematically conceptualized and adequately expounded. With reference to the works of these philosophers, this book examines the major categories and essential properties of human life as it is lived, for example, in time, circumstance, history, and understanding.

Justifying Our Existence Graeme Nicholson,2009-02-21 In his magnum opus *Being in Time* 1927, Martin Heidegger 1889-1976 argued that individuals have assumed that their existence is a given when in actual fact they simply have the ability to be. *Justifying Our Existence* examines the ways in which human beings attempt to calm their existential concerns by magnifying and proving their existence through phenomena such as self-righteousness, careerism, nationalism, and religion. Using remarkably accessible and concise writing, Graeme Nicholson provides a close reading of Heidegger's methods to indicate how his work has a practical application for existential concerns. *Justifying Our Existence* shows how phenomenology can be used to foreground existence while also providing startling insights into human behaviour, the motivation behind many of our social systems, as well as one of the twentieth century's most important philosophers.

Through the Tempest Langdon

Gilkey,2005-01-26 Western society continues to be faced with numerous consequences of pluralism ecological concerns global imbalances racial injustices and gender discrimination Christianity at the same time is confronting its own lack of superiority or cultural dominance How can Christian theology face these issues to construct a theology for the twenty first century In this book Gilkey articulates constructive proposals for addressing such issues Rather than steering around the multiple challenges of pluralism he offers insights to help shape a viable theology
