tica The Latino Religious Experience and Political Engagement in the United States presents a corrective challenge to the

become involved in politics because of the predominant Catholic beliefs of this demographic Through comprehensive analysis
of the political tendencies of Latinos and Latinas of faith the findings in this work consistently counterpoint those conclusions
from a variety of perspectives and methodologies The research presented in the book comprises surveys that are national in
scope both of elites and at the mass level as well as localized in cities The authors have also collected ethnographies that are
localized in U S cities and transnational in nature The result is both a broad view of Latino politics and religion and detailed
information that provides far more context that is possible in national level quantitative studies **Democratization of**
