*1 (Classic Reprint)* Leonard Bacon,2017-09-17 Excerpt from The Genesis of the New England Churches Vol 1 A few words  
will sufficiently explain to the reader of this book the design of the author The history of Protestant Christianity in the United  
States of America is the history not of a national church but Of voluntary churches I have attempted to show how it began  
and to trace the origin and development of the idea which generated the churches of New England It is hardly necessary to  
say that the Baptist churches a name which in the United States comprehends more churches than any other save one are  
constituted on the same platform of polity with the church which came in the May ower I have had no occasion to speak of  
them or of their in uence in giving character to our American civilization inasmuch as the history of churches bearing that  
name on this side of the Atlantic begins later than the latest date in the volume now submitted to the public It has been  
claimed for those churches that from the age of the Reformation onward they have been always fore most and always  
consistent in maintaining the doctrine of religious liberty Let me not be understood as calling in question their right to so
