The Past We See Today:

The Civilizing Process and the Past We Now Abhor Bruce Fleming, 2022-04-19 Drawing on the thought of Norbert Elias and using as a thread a purposely apolitical example of cruelty to animals to focus on changes in attitudes this book explores the ways in which we deal with a past that we now abhor As we struggle to deal with the fact that our past shapes us indeed is us but is not us and cannot be changed the modern tendency is to demand merely cosmetic rather than real changes to the world and to judge harshly the individuals with whom the past is populated pulling down statues or re naming institutions An examination of our modern colonialism of time rather than place which refuses to consider or accept the fact that without our past we wouldn t be here at all let alone in a position to judge The Civilizing Process and the Past We Now Abhor will appeal to scholars and students of sociology cultural studies and literature with interests in contemporary questions of race morality and efforts to correct the wrongs of our past *The Caribbean Race Reader* Victoria J. Collis-Buthelezi, Aaron

Kamugisha, 2024-09-11 This book is the first critical anthology in English on the history and legacy of race in the Caribbean It brings together the major debates lines of inquiry and theories around race and racism that have emerged out of the Caribbean from the beginning of European colonization at the end of the fifteenth century to the period of decolonization in the aftermath of World War II This critical anthology stakes out the unique contribution made by the region to the global history of race The Caribbean Race Reader provides students and scholars of the region with vital access to some of the most important contributions on race and Caribbean society many of which are difficult to access and assembles them together as part of a series of key debates At a time when the searing realities of race and antiblack racism stand out as global existential crises this volume both documents the Caribbean s important contribution to global histories of race and provides an excellent overview of the quest by the region s radical intelligentsia to undo racism s contemporary legacies **Fairy**
