Virtual Collaboration Pro:

Professional Learning Redefined Isabel Sawyer, Marisa Ramirez Stukeley, 2019-02-16 You've just found your new comprehensive guide to designing powerful professional learning. Full of protocols, vignettes, and case studies, this book dissects elements of professional learning like coherence, connections, and content, and examines each through an evidence-based lens. Destined to become a go-to resource for anyone in a teacher support role, this book analyzes research from the past 25 years on what makes professional learning work. In addition to focusing on the often-neglected role of the facilitator, other features include a multi-year implementation framework to improve instructional practice, planning tools to shift instruction at the school and district level, techniques and strategies to embed content-based learning for all educators.

Virtual PLCs at Work® Paul C. Farmer, Dennis King, 2021-09-23 Virtual teaming and virtual learning have been practiced for decades but never to the level required today. As the educational landscape continues to evolve, ensure your PLC evolves right along with it. With this resource from Paul C. Farmer and Dennis King as your guide, you'll explore an abundance of tools and tips for maintaining your PLC structures along with proven best practices to help instruction and learning thrive beyond the four walls of your school. A book on implementing online professional learning communities for teachers and administrators. Receive an overview of the PLC process and understand how all educators fit into it. Learn how to implement each step of the PLC process virtually. Address the four pillars of a PLC: mission, vision, values, and goals in a virtual context. Develop and maintain an ideal school culture in a virtual environment with online teacher communities. Acquire strategies to strengthen every student's virtual or blended learning experience with the PLC process. Contents: Foreword by Mike Mattos, Introduction: An Unprecedented Shift in Teaching and Learning, Chapter 1: The Three Big Ideas, Chapter 2: The Foundational Elements, Chapter 3: Creation and Maintenance of School Culture in a Virtual Environment, Chapter 4: Teacher Collaboration in a Virtual PLC, Chapter 5: Assessment, Intervention, and Enrichment in a Virtual PLC, Chapter 6: Leadership in a Virtual Environment, Epilogue, Appendix, References and Resources.

Online Learning Communities and Teacher Professional Development: Methods for Improved Education Delivery Lindberg, J. Ola, Olofsson, Anders D., 2009-08-31 This book features innovative applications for the integration of technology into everyday teaching practices. Provided by publisher.

Database, 2002 [Naval Engineers Journal](#), 1998 [Online and Distance Learning](#), 2008 This comprehensive six volume collection addresses all aspects of online and distance learning including information communication technologies applied to education virtual classrooms pedagogical systems Web based learning library information systems virtual universities and more It enables libraries to provide a

foundational reference to meet the information needs of researchers educators practitioners administrators and other stakeholders in online and distance learning Provided by publisher **Handbook of Online Learning** Kjell Erik Rudestam, Judith Schoenholtz-Read, 2002-02-19 I found the book excellent and read every one of the 450 pages Many of the chapters reflect the Fielding Institute's focus on human and organizational behaviour educational leadership and organizational management The book will be particularly appropriate for readers from a corporate training or business school background though there is much for academics and online educators at all levels and subject areas to learn from this well crafted book There are many books and articles about online learning This is one of the better ones Robin Mason Computers and Education Technology mediated instruction has taken the university and the corporate sector by storm As more instructors teach online for a dispersed learning community in both academic and business environments there's a need for resources that will help them adapt to this new teaching method Educators who come out of traditional academic institutions tend to use traditional methods when offering courses online e.g. lectures textbooks and readings examinations rather than attend to small group processes and principles of what the editors of this volume call andragogy This Handbook goes beyond the mechanics of how to create and direct an online learning experience to consider such a new approach to pedagogy in doing so The editors' primary purpose is to clarify the conceptual issues that underlie effective online teaching and to offer practical guidance to educators and corporate trainers who plan to teach in a virtual environment Their central tenet is the adoption of computer networks as the teaching vehicle of the future demands a re-examination of our core beliefs about pedagogy and how students learn The transfer of a classroom curriculum into cyberspace is deceptively simple but doing so without an appreciation of the nuances and implications of learning online ignores not only the potential of this medium but the inevitable realities of entering it Rather than fear the challenges that new technology brings to systems of learning the editors hope to help instructors embrace it by re-thinking how knowledge is acquired and how educational processes may be optimally designed in a new age of teaching and learning Features Benefits Part I provides an overview and includes discussion of the unique structural aspects of the electronic learning environment pedagogical issues curriculum design psychological and group dynamics and ethical issues Part II examines practical issues associated with implementing courses online both in the traditional university setting and in professional/corporate training environments The book draws heavily on personal case examples many from The Fielding Graduate Institute's 26 years of teaching in nontraditional distributed learning environments Reference & User Services Quarterly, 2006 *Library & Information Science Abstracts*, 2008 *Research EU.*, 2010
