What Happened:

Tell Me What Happened Michael E. Lamb, Irit Hershkowitz, Yael Orbach, Phillip W. Esplin, 2011-08-24 Investigation of child abuse is often hampered by doubts about the reliability of children as only sources of information Over the last decade consensus has been reached about children's limitations and competencies New for the Wiley Series in the Psychology of Crime Policing and Law Tell Me What Happened summarizes key research on children's memory communicative skills and social tendencies describes how it can be incorporated into a specific structured interview technique and reviews evidence involving more than 40 000 alleged victims

What Happened in the Woodshed Lawrence R. Ricci M.D., 2018-03-14 A riveting exposé of child abuse in America and how the newest breed of pediatricians determines what happened why and at whose hands Although more than one million children are abused each year in the United States child abuse often remains a secret to family members professionals and politicians who neither see nor understand it Child abuse pediatricians are the newest breed of pediatricians specialized in exposing abuse With detective like acumen child abuse pediatricians deduce through careful medical analysis who has abused and who has been abused Describing the most compelling cases among the thousands that they have evaluated author Lawrence Ricci reveals the trauma pain disability and sometimes death that abused children experience at the hands of trusted adults This gripping look at the dark side of American families is about good parents and poor ones perpetrators and victims and collateral victims such as innocent family members It is also about the professionals who have made it their career to expose child abuse and to treat children who have suffered from it The conclusion calls for systematic changes that could help to stem the tide of child abuse

What Happened to the Teacher's Pet? Charvette Yvonne Jones, 2014-09-12 What Happened to the Teacher's Pet was written as an inspirational tool to motivate teachers to teach from a perspective of passion for overall student success Too often society is allowed to dictate the state of our students and cast blame for substandard performance and failure onto the students their choices or their abilities This book addresses the concept of that attitude which actually does reflect leadership It points out the truth that lies behind our students so called problems and discredits some typically misguided reasons why students cannot or will not learn All in all this book is dedicated to encourage teachers to teach like they mean it and believe in themselves
