Minor Genres in Postcolonial Literatures Delphine Munos, Bénédicte Ledent, 2020-06-05 Moving beyond the postcolonial literature field s traditional focus on the novel this book shines a light on the minor genres in which postcolonial issues are also explored The contributors examine the intersection of generic issues with postcolonial realities in regions such as South Africa Nigeria New Zealand Indonesia Australia the United Kingdom and the Caribbean These minor genres include crime fiction letter writing radio plays poetry the novel in verse and short stories as well as blogs and essays The volume closes with Robert Antoni s discussion of his use of the vernacular and digital resources in *As Flies to Whatless Boys* 2013 and suggests that major genres might yield new webs of meaning when digital media are mobilized with a view to creating new forms of hybridity and multiplicity that push genre boundaries In focusing on underrepresented and understudied genres this book pays justice to the multiplicity of the field of postcolonial studies and gives voice to certain literary traditions within which the novel occupies a less central position This book was originally published as a special issue of the *Journal of Postcolonial Writing*
