Wild Animal Rescue:

Wildlife Search and Rescue Rebecca Dmytryk, 2011-12-14 Rescuing wild animals in distress requires a unique set of skills very different from those used in handling domestic animals. The equipment, degree of handling, the type of caging and level of care a wild animal receives can mean the difference between life and death. Wildlife Search and Rescue is a comprehensive guide on best practices and suggested standards for response to sick, injured, and orphaned wildlife. This valuable resource covers the fundamentals of wildlife rescue from phone to field, including safe and successful capture strategies, handling, and restraint techniques, and initial aid. Wildlife Search and Rescue is a must-have for anyone interested in knowing what to do when they are face-to-face with a wild animal in need or for anyone involved in animal rescue. While the book focuses on wildlife native to North America, much of the information and many of the techniques are applicable to other species, including domestic dogs and cats. Visit www.wiley.com/go/dmytryk_wildlifeemergency to access the figures from the book.

Hospital When the veterinarians couldn't look after it Hope Swinimer decided to take the helpless animal into her care and that was the start of it all Now through her rehabilitation centre called Hope for Wildlife Hope's name is synonymous with wildlife rescue in Nova Scotia Since 1997 hundreds of animals have been saved through the tireless efforts of the staff and volunteers at Hope for Wildlife Some animals' stories were so unique that they even garnered national attention such as Hope's battle with the department of natural resources over Gretel a member of the endangered pine marten species Each creature comes with its own challenges either through a particularly difficult injury or a quirky personality like Lucifer the inexplicably bald and ornery raccoon but each patient leaves an indelible mark on the lives of those around them Hope for Wildlife tells the stories of fourteen different wild animals from Nova Scotia that have passed through the centre Colour photographs of the animals and the centre's efforts supplement the text and info boxes offer further information on the province's wildlife The stories in Hope for Wildlife are educational heartwarming and sometimes heartbreaking but always filled with hope

Through Animals' Eyes Lynn Marie Cuny, 1998 A raccoon with burned feet who refuses to give up a self-appointed guardian hen who refuses to leave an injured fox an abandoned emu who plays pickup sticks with an old one-winged vulture and a traumatized mother mockingbird who adopts an orphaned sparrow are among the characters The tales are from Wildlife Rescue and Rehabilitation which Cuny founded in 1977 and are intended to convince readers that non-human species think and feel She includes black and white photographs No index or bibliography Annotation copyrighted by Book News Inc Portland OR
