updates his 2008 book to reflect recent developments in Disney and Disney Pixar animation such as the apocalyptic tale of earth's failed ecosystem WALL-E. As Whitley has shown and Disney's newest films continue to demonstrate the messages animated films convey about the natural world are of crucial importance to their child viewers. Beginning with Snow White, Whitley examines a wide range of Disney's feature animations in which images of wild nature are central to the narrative. He challenges the notion that the sentimentality of the Disney aesthetic, an oft-criticized aspect of such films as Bambi, The Jungle Book, Pocahontas, Beauty and the Beast, and Finding Nemo, necessarily prevents audiences from developing a critical awareness of contested environmental issues. On the contrary, even as the films communicate the central ideologies of the times in which they were produced, they also express the ambiguities and tensions that underlie these dominant values. In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated, Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art plays in shaping the emotions and ideas that are central to contemporary experience.

*Deconstructing Zen* William C. Dell, 2010 **Early Modern Civil Discourses** J. Richards, 2003-09-09 This collection explores the concept of civility in the early modern period. It addresses a range of writings in English and Scots, among them conduct manuals, colonial tracts, diaries, letters, dialogues, poetry, drama, chronicles by English, Welsh, and Scots men and women in and about the Atlantic archipelago. It explores the many meanings of civility in the early modern period, it recovers some of the lost associations of civility, as well as the complex use of the adjectives civil and barbarous in cultural and colonial encounters.

Notes for a New Mind William Dell, 2005 What is known about the split brain is reviewed in a historical context as a paradigm for a new mind. The poetry of William Wordsworth is examined as a precursor to this mentality. The possibility of a new mind and its new myth, the deconstruction emerging from the split brain in the modern world, is set forth. The last issue of consciousness, perhaps, is not the resolution of duality but is the multiform periphery. The question is: am I more than my brain?

The Hesperides & Noble Numbers Robert Herrick, 1898 *Flora Annie Steel* Susmita Roye, 2017-03-23 A collection of essays on the writer who, after Rudyard Kipling, was the most famous nineteenth-century British author to depict India. Nineteenth-century literature. Flora Annie Steel, 1847-1929, was a contemporary of Rudyard Kipling and rivaled his popularity as a writer during her lifetime, but her legacy faded due to gender-biased politics. She spent twenty-two years in India, mainly in the Punjab. This collection is the first to focus entirely on this unconventional memsahib and her contribution to the turn-of-the-century Anglo-Indian literature. The eight essays draw attention to Steel's multifaceted work, ranging from fiction to journalism to letter writing, from housekeeping manuals to philanthropic activities. These essays, by recognized experts on her life and work, will appeal to interdisciplinary scholars and readers in the fields of British India and Women's Studies. Contributors: Amrita Banerjee, Helen Pike Bauer, Ralph Crane, Grinne Goodwin, Alan Johnson, Anna Johnston, Danielle Nielsen, LeeAnne M. Richardson, Susmita Roye. Going beyond Steel's most

famous and widely discussed work *On the Face of the Waters* this excellent volume strives to shed light on her less well known novels such as *The Potter's Thumb* and *Voices in the Night* *A Chromatic Fantasia* as well as her short fiction and other genres of her writing that have not received much attention from literary critics including housekeeping advice journalism and letters to editors Oxford University Press Journals The essays in this volume treat topics ranging from Steel's rewriting of women's role in the maintenance of British power to her sympathetic representation of the wit and creativity of Indian girls
