*China at War* Xiaobing Li, 2012-01-10  
This comprehensive volume traces the Chinese military and its experiences over the past 2,500 years, describing clashes with other kingdoms and nations as well as internal rebellions and revolutions. As the first book of its kind, *China at War: An Encyclopedia* expands far beyond the conventional military history book that is focused on describing key wars, battles, military leaders, and influential events. Author Xiaobing Li, an expert writer in the subjects of Asian history and military affairs, provides not only a broad chronological account of China's long military history but also addresses Chinese values, concepts, and attitudes regarding war. As a result, readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China's decision-making process. This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework, allowing students to compare Chinese with Western and American views and approaches to war. Topics among the hundreds of entries by experts in the field include Sunzi's classic *The Art of War*, Mao Zedong's guerrilla warfare in the 20th century, Chinese involvement in the Korean War and Vietnam War, and China's nuclear program in the 21st century.

*Mao's Generals Remember Korea* Xiaobing Li, Allan Reed Millett, Bin Yu, 2001  
Fifty years after the Korean conflict, what is a forgotten war for some Americans is an aching memory for China. With over a million casualties out of the three million soldiers sent into battle, that war looms as large for the People's Republic of China (PRC) barely a year old when North Korea invaded the South as World War II does for most other countries. It was the first international war fought by the Chinese Communist regime to halt counterrevolution; it was also a war that the Chinese fully expected to win by virtue of not only superiority of numbers but also their soldiers' superior political quality. This book presents a mosaic of memoirs by key Chinese military commanders from that war, drawing not only on their personal papers but also on still-classified archives and on Chinese language sources unavailable in English. It offers an uncensored, behind-the-scenes story of the Communist campaign from the decision to intervene through the truce negotiations that discloses new information on such facets of the war as strategy and tactics, use of propaganda, and mobilization of the Chinese population. It also reveals the generals' concerns about the possible use of nuclear force and the alleged use of biological and chemical weapons by the United States. The book contains a wealth of new materials on the Chinese intervention, including combat operations, logistics, political control, field command, and communications. Among those whose recollections are recorded, then acting Chief of Staff Nie

Rongzhen reveals how party leadership decided on intervention Commander in Chief Peng Dehuai provides personal accounts of major battles and communications with Mao and General Yang Dezhi shares secrets of Chinese military strategy and tactics discussing how the army orchestrated each battle to contend with the better equipped UN forces The volume also features an updated short history of the PRC s conduct of the war based on Chinese sources plus rare photos from Chinese archives that put readers behind the lines from the Chinese side Mao s Generals Remember Korea demonstrates that the PRC continues to draw military diplomatic and strategic lessons from the war it fought fifty years ago with the world s most powerful military force It offers valuable insight into the Chinese way of war and the military mind of Mao that will be a rich resource for Asian and military scholars *The New Encyclopaedia Britannica* ,2003 **The Macmillan Dictionary of Military Biography** Alan Axelrod,Charles Phillips,1998 From Julius Caesar to Colin Powell this comprehensive reference covers more than 500 of the most significant military leaders in history Each entry includes a biographical and military overview and an essay that briefly profiles the subject s character and weights his significance in history *The New Encyclopaedia Britannica: Index* ,1997 **Making People Disappear** Alain Jaubert,1989 *Longman Dictionary of 20th Century Biography* Asa Briggs,Alan Isaacs,Elizabeth Martin,1985 *Modern China, a History* Edwin E. Moise,1994 Readable informative and clear this widely used survey of twentieth century China has been a welcome introduction to an unfamiliar world for many thousands of readers since its first appearance in 1986 Much has happened since then with political tension going hand in hand with a spectacular economic growth under Deng Xiaoping that has caused the outside world to recognise China with mixed emotions as a rising superpower This eagerly awaited and substantially expanded new edition reset in a more generous format brings the story up to date *Bibliography of Asian Studies* ,1987 *Directory of Historical Figures* Salem Press,2000 *Encyclopedia of World War II: A-C* ,2005 An unprecedented achievement in publishing a multivolume encyclopedic resource for both the general reader and specialist on the central conflict of the 20th century The encyclopedia of World War II covers the entire scope of the Second World War from its earliest roots to its continuing impact on global politics and human society **Modern Chinese Art** Sotheby's Taiwan Ltd,1992 *Encyclopedia of World War Two* Spencer Tucker,Priscilla Mary Roberts,2005 An unprecedented achievement in publishing a multivolume encyclopedic resource for both the general reader and specialist on the central conflict of the 20th century The Encyclopedia of World War II covers the entire scope of the Second World War from its earliest roots to its continuing impact on global politics and human society
