

A transformative public sector is a critical cog in promoting sustainable development. Drawing from a wide array of experienced researchers, academics and practitioners in the field of public governance and management, *Zimbabwe in Transition Towards Transformative and Sustainable Public Governance and Management* offers evidence-informed insights into the structural and situational factors that are critical in orienting the public sector to the national development agenda anchored on attaining a middle-income economy ranking. These efforts are taken at a time when the global public administration discourse is shifting towards 'new public governance' concepts anchored on open government, network governance, co-production, and public value proposition. The book views Zimbabwe's transitional period as a new 'window' on the political, administrative, legal, and bureaucratic arenas to rethink the existing approaches and leverage Zimbabwe's development agenda which is primarily premised on re-engagement. This intellectual climate informs the discussions in the three chapters of literature.

Among the pressing, transnational national questions which the book is seized with, are: What governance instruments should be adopted to create an enabling business policy environment in line with the re-engagement and open-to-business drive of the nation? What legal frameworks does transitional Zimbabwe need to support the national development agenda? What architecture of bureaucracy is needed to provide the critically needed policy direction anchored on transformative and sustainable development? How can strategic institutions such as the Zimbabwe Investment Development Agency operate to attract foreign investment capital? What best governance practices should guide state institutions monitoring procurement, corruption, and national peace and reconciliation? How can ICTs and social media platforms be managed to broaden and deepen democracy structural space and practices? The book should engage wide reading among university students, academics and practitioners in the areas of governance, public administration and management, public policy, and development studies.

Timothy Murithi, Aquilina Mawadza

Zimbabwe In Transition:

Zimbabwe in Transition Timothy Murithi, Aquilina Mawadza, 2011 Zimbabwe's Transition to Democracy in the post independence era has been a very difficult one To date there have been a number of sustained efforts by various local regional and international actors to move Zimbabwe towards democracy as well as attempts to find a lasting solution to the political and economic crises that seriously affected the country's progress from the late 1990s However these attempts have been less successful mainly because Zimbabwe has complex political and economic problems with interlocking national regional and international political and economic dimensions rooted in both historical and contemporary factors and developments To understand the complexities of the challenges to Zimbabwe's transition to democracy as well as prospects for political change and democracy in the country Zimbabwe in Transition critically examines both the historical and contemporary dynamics shaping political and economic developments in the country taking into account voices from a broad spectrum of Zimbabwean society including civil society faith based communities the diaspora women community leaders the media youth and regional actors such as SADC and the AU Book jacket [Zimbabwe in transition](#) Gary Bland, 2010-09-28 The world's attention has remained focused on critical national events in Zimbabwe as the country has moved from the turmoil of 2008 to the establishment of the current Inclusive Government In the process the country's 90 newly elected local governments have been largely ignored This brief summarizes our effort to close that informational gap It provides the results of our extensive research on local governance in Zimbabwe from May to June 2009 Through survey interviews with more than 250 local officials in 15 local authorities we examined four areas First we found that local administration officials are much better educated and more experienced than local elected officials which has significant ramifications for local governance Second we discovered that local officials believe that public participation in local government is strong However we found that citizen involvement is actually quite weak Third local authorities are doing their best to operate with minimal resources Financial transfers from the central government dried up long ago and because of the economic situation revenue generation is poor Finally our research captures the poor state of public services especially health care and basic infrastructure We include some ideas for reform and recovery in the conclusion **Zimbabwe in Transition** Simon Baynham, 1992 5 PUBLIC FINANCE John Robertson [Exploring U.S. Policy Options Toward Zimbabwe's Transition](#) United States. production are depressed and investment inflows are limited what spaces exist for fiscal reform Are local authority structures and the state bureaucracy equipped to handle the tasks that will ne asked of them In terms of two important areas the book extends its analysis further back than 2009 First is the issue of emigration Estimates of the number of Zimbabweans in the diaspora range from three to four million what impact us this having on national development and to what extent might the trend of migration be reversed The second concerns young people the chapter on which concludes We already have a lost generation those who were once called the born frees Unless positive changes are made we will still have another This collection of eleven essays examines in detail some of the pressing questions which Zimbabweans must ask as they chart a way forward *Struggling for a Transition in Zimbabwe* Ibbo Mandaza,Tony Reeler,2024

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni,Pedzisai Ruhanya,2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics

Cultures of Change in Contemporary Zimbabwe Oliver Nyambi,Tendai Mangena,Gibson Ncube,2021-11-04 This book investigates how culture reflects change in Zimbabwe focusing predominantly on Mnangagwa s 2017 coup but also uncovering deeper roots for how renewal and transition are conceived in the country Since Emmerson Mnangagwa ousted

Robert Mugabe in 2017 he has been keen to define his Second Republic or New Dispensation with a rhetoric of change and a rejection of past political and economic cultures This multi and inter disciplinary volume looks to the social media language discourse theatre images political speeches and literary fiction and non fiction to see how they have reflected on this time of unprecedented upheaval The book argues that themes of self renewal stretch right back to the formative years of the ZANU PF and that despite the longevity of Mugabe s tenure the latest transition can be seen as part of a complex and protracted layering of postcolonial social economic and political changes Providing an innovative investigation of how political change in Zimbabwe is reflected on in cultural texts and products this book will be of interest to researchers across African history literature politics culture and post colonial studies
