Zone Diet Cookbook Aaron Nelson Ph D,2020-08-11 The Zone diet aims to reduce inflammation and encourage healthy insulin levels It may help people balance their intake of protein and carbohydrate It also encourages people to consume healthful fats and antioxidants including omega 3 fats and polyphenol antioxidants in supplement form The diet recommends limiting caloric intake but does not restrict calorie intake to a specific amount The Zone doesn t promise immediate dramatic weight loss You can expect to lose just 1 to 1.5 pounds in the first week But the plan pledges that the weight you lose will be all fat not muscle or water As your body changes your clothes will fit better even if the scale doesn t budge all that much at first To follow the diet you need to stick to a set ratio of 40% of your daily calories coming from carbohydrates 30% from protein and the remaining 30% from fats Although we allow you to choose how many meals and snacks you wish to have the diet recommends that you have 3 main meals and 2 snacks or 5 smaller meals each day
