Meanings of Public and the Future of Public Services David A. McDonald, 2022-09-09 Critically assessing meanings of the term public this book situates the emergence and expansion of public services within market based forms of production and consumption It highlights the potential for making public services more progressive within market societies but underscores their ongoing capture by private interests and emphasises the inherent limits of reform within a bourgeois public sphere The author explores opportunities for more expansive forms of non marketized public services examining
