**Visions** C.G. Jung, 2022-05-29 For Jung the beautiful and brilliantly creative 28 year old Christiana Morgan was an inspired force whose path in self analysis paralleled his own quest for personal knowledge By teaching Morgan the trance like technique of active imagination Jung helped her embark on a series of archetypal adventures which she depicted in paintings of great virtuosity and he candidly recounted at a seminar given to some of his closest followers Through his eloquent description of the fiery mythic visions of a woman discovering her repressed sexuality and feminine power Jung reveals how deeply this encounter challenged his understanding of feminine psychology These two volumes bring together for the first time colour reproductions of Morgan s paintings with a complete transcript of the seminar

**Tantalisingly Close** Imar Vries, 2025-10-01 While studies of mobile wireless communication devices usually focus on their social implications De Vries proposes to venture into a more historical and comparative direction to shed light on our preoccupation with them in the first place He

constructs an archaeological view of the development of communication technologies over the past 200 years providing a comprehensive account of how persistent hopes and beliefs have come to give mobile wireless media such a prominent position today Our expectations and uses of them are surprisingly similar to those of older media consequently they reconfirm the idea that living in an anyone anything anytime anywhere world is both a blessing and a curse and that the desire for sublime communication is a tragic yet highly powerful regulative principle in our media evolution
