Each Web site will help reinforce language skills while providing students with interactive lessons on the unique culture of the peoples who speak the language. The next best thing to visiting the country itself. For each of the 56 primary Web sites, a site summary is given describing its contents and usefulness to teachers and school library media specialists. Site subjects may include a country's radio or news program, the history of a country, and its visual arts, including museums, foods eaten by the people who speak this language, and recipes on how to prepare them, ceremonies, customs, and sports enjoyed, geography of the countries who speak this language, and sites to help practice the language itself. Following are a list of questions and activities which students can prepare orally or in written form, and at least four more related Web sites are provided for further study. Using this book will not only help students increase their language skills, but it will also open up the entire culture to enable students to experience it just as if they were visiting.
