The Gathering Passion:

Worship with Teenagers Eric L. Mathis, 2022-02-15 This book addresses the vital role of public Christian worship in adolescent spiritual formation and shows how important youth ministry and worship ministry are to each other. Despite numerous research projects, books, articles, and resources that have been published about teenagers and about worship in recent years, the relationship between the two has been addressed only peripherally, if not altogether overlooked. Drawing on his extensive experience in worship ministry and youth ministry, Eric Mathis offers insights into the worship practices of teenagers, corrects common misperceptions about worship, and critically examines four prominent worship models in current practice. Mathis invites youth pastors, worship leaders, ministerial students, and congregations to elevate the voices of young people in the worshipping community and enhance worship for all ages. The book includes a foreword by Kenda Creasy Dean.

The Psychology of Passion Robert J. Vallerand, 2015 In *The Psychology of Passion*, Robert J. Vallerand provides a complete presentation of the Dualistic Model of Passion and reports on the empirical evidence supporting the theory. Vallerand highlights the effects of two types of passion: harmonious and obsessive, on a number of psychological phenomena such as cognition, emotions, performance, relationships, aggression, and violence. **Shout to the Lord** Ari Y.

Kelman, 2018-06-19 How music makes worship and how worship makes music in Evangelical churches. Music is a nearly universal feature of congregational worship in American churches. Congregational singing is so ingrained in the experience of being at church that it is often misunderstood to be synonymous with worship. For those who assume responsibility for making music for congregational use, the relationship between music and worship is both promising and perilous. Promise is in the power of musical style and collective singing to facilitate worship; peril is in the possibility that the experience of the music might eclipse the worship it was written to facilitate. As a result, those committed to making music for worship are constantly reminded of the paradox that they are writing songs for people who wish to express themselves as directly as possible to God. This book shines a new light on how people who make music for worship also make worship from music. Based on interviews with more than 75 songwriters, worship leaders, and music industry executives, *Shout to the Lord* maps the social dimensions of sacred practice, illuminating how the producers of worship music understand the role of songs as both vehicles for and practices of faith and identity. This book accounts for the human qualities of religious experience and the practice of worship, and it makes a compelling case for how, sometimes, faith comes by hearing. *The Century*, 1883 **The Hopes and**
