Robert Anderson

The Georgics:

The Georgics Virgil, 1982 The Georgics is the production of Virgil's mid to late thirties He began writing it between 38 and 36 B C and read the finished poem to Octavian in 29 B C when the Emperor had just returned from his successful eastern campaign Though peace and good husbandry are celebrated in the poem the pressure of events affected Virgil and much of the matter of The Georgics bears oblique reference to the immediate and recurrent theme of war and civil strife In this new translation of a classic poem which has marked English poetry deeply by its example Robert Wells has chosen a plain carefully paced and resonant language He respects the matter of the poem its actual content and Virgil's more than literary understanding of his theme and the poem has particular authority in Well's English because of his familiarity with Virgil's landscape and the rural disciplines that inform Virgil's poem In his introduction Wells attempts a reevaluation of the poem and describes its perennial power Front cover book flap *The Georgics of Virgil* Virgil, 1904 **The Georgics of Virgil** L.
