The Gift Of Touch

Ebenezer Cobham Brewer

The Gift Of Touch:

The Gift of Touch Helen Colton, Professor Colton, 1995-02 From cuddling a newborn baby to comforting an elderly parent our lives are defined nurtured and sustained by the sense of touch Colton shows readers how to employ touch to help relieve stress heighten sexual fulfillment enhance casual communication cope with depression and more [The Gift of Touch](#) Jay North, 2011-06-01 The result of 35 years of study in the healing arts The Gift of Touch shows how novices and professionals alike can use touch to release negative energy and pivot to positive energy flow and create marvelous changes in both physical and mental well being [The Gift of Touch](#) Stephen David Ross, 1998-08-27 Traces Western ideas of corporeal bodies from Plato to contemporary feminist and poststructuralist writings with the purpose of reexamining the good identified in Plato as that which gives authority to knowledge and truth *Entangled Worlds* Catherine Keller, Mary-Jane Rubenstein, 2017-08-08 Historically speaking theology can be said to operate materiaphobically Protestant Christianity in particular has bestowed upon theology a privilege of the soul over the body and belief over practice in line with the distinction between a disembodied God and the inanimate world He created Like all other human social and natural sciences religious studies imported these theological dualisms into a purportedly secular modernity mapping them furthermore onto the distinction between a rational enlightened Europe on the one hand and a variously emotional primitive and animist non Europe on the other The new materialisms currently coursing through cultural feminist political and queer theories seek to displace human privilege by attending to the agency of matter itself Far from being passive or inert they show us that matter acts creates destroys and transforms and as such is more of a process than a thing *Entangled Worlds* examines the intersections of religion and new and old materialisms Calling upon an interdisciplinary throng of scholars in science studies religious studies and theology it assembles a multiplicity of experimental perspectives on materiality What is matter how does it materialize and what sorts of worlds are enacted in its varied entanglements with divinity While both theology and religious studies have over the past few decades come to prioritize the material contexts and bodily ecologies of more than human life *Entangled Worlds* sets forth the first multivocal conversation between religious studies theology and the body of the new materialism Here disciplines and traditions touch transgress and contaminate one another across their several carefully specified contexts And in the responsiveness of this mutual touching of science religion philosophy and theology the growing complexity of our entanglements takes on a consistent ethical texture of urgency **Intimacy** Christopher Lauer, 2016-02-25 An important contribution to the burgeoning field of the ethics of recognition this book examines the contradictions inherent in the very concept of intimacy Working with a wide variety of philosophical and literary sources it warns against measuring our relationships against ideal standards since there is no consummate form of intimacy After analyzing ten major ways that we aim to establish intimacy with one another including gift giving touching and fetishes the book concludes that each fails on its own terms since intimacy wants something that is impossible The very concept of

intimacy is a superlative one it aims not just for closeness but for a closeness beyond closeness Nevertheless far from a pessimistic diagnosis of the human condition this is a meditation on how to live intimately in a world in which intimacy is impossible Rather than contenting itself with a deconstructive approach it proposes to treat intimacy dialectically For all its contradictions it shows intimacy is central to how we understand ourselves and our relations to others [Toward a Better Worldliness](#) Terra Schwerin Rowe,2017-04-01 Five hundred years ago the Protestant Reformation inspired profound theological ecclesial economic and social transformations But what impact does the Protestant tradition have today And what might it have This volume addresses such questions focusing on the economic and ecological implications of the Protestant doctrine of grace In the late twentieth century a number of Protestant scholars countered Max Weber s famous work on Protestantism and capitalism by arguing that Calvin and Luther were prophetic critics of early capitalist practices While acknowledging the importance of this scholarship Terra Rowe argues that a more nuanced approach is necessary This narrative tends to purify Protestantism of capitalist beginnings and does not account for compelling arguments articulated by proponents of Radical Orthodoxy tying Protestantism and Protestant grace in particular to capitalism These debates now emerge with increasing urgency in the face of growing economic injustice and overwhelming evidence of an ecologically unsustainable economic system demonstrated most potently by climate change In the spirit of ecotheologies resonating with the best of the Reformation tradition this book develops a fresh reading of Luther s theology of grace and his economic ethics in conversation with current reflections on concepts of the gift and gifting practices **A Dictionary of Miracles** Ebenezer Cobham Brewer,1884 *Desire* Lauren Fogel Mersy,Jennifer A.
