Entering the Global Arena Jonathan Grix, Paul Michael Brannagan, Donna Lee, 2019-07-17 Set against a backdrop of concerns about the potential break up or radical change to the global world order this volume sets out to investigate the use of sports mega events by a number of emerging states Sports mega events it is argued can be understood as a key component in states soft power strategies that is their attempts to showcase their nations on the international stage increase their power relative to others via non-coercive means and to increase trade and tourism Many studies on soft power simply cite the concept's founder Joseph Nye and make little attempt at unpicking the mechanisms behind its creation This volume does this by shining a light on emerging economies and by putting forward a soft power ideal type to aid researchers in understanding the strategies employed by states in advancing their interests

The Voice of the Seven Thunders George Kevyn Weber, 2014-07-21 There is no time for the people of the world to waste to decide to change their ways and their ways of living The world is in a crisis that it has not been in before Actually the world has been in countless crises in the past before disaster calamity or catastrophe struck the people of the earth We are not talking of crises of natural disasters calamities or catastrophes that have hit the earth we are talking about man-made man-engineered and man-designed disasters calamities and catastrophes that have hit the world from time to time History is full of them and apart from those natural disasters caused by God or the Devil themselves the rest were caused by man themselves Now this revelation is not about the natural but about the spiritual Power mad dictators rulers and potentates the world over are normally the cause of these disasters calamities and catastrophes and nature has little to do with them although they did affect nature in some way or another Small and great Wars were started by whosoever caused them without any due regard of men's lives and the resultant horrors hardships and horrendous pain lived on in the hearts and lives of the people that survived No one can add these things up nor can they count the cost in human suffering misery and pain nor the cost of men's souls lost all for the sake of man's vanity The current synopsis is catchy and intriguing This synopsis is well-written and it will entice readers into picking this book up and reading it Cynthia Sherman Writers Literary Publishing Services Critique Division
