Midcentury Minor Novel Michael Kalisch, 2024-08-31 The *Midcentury Minor Novel* brings to light a distinctive mode of the American novel emergent in the middle decades of the twentieth century It explains how a group of neglected writers reimagined the novel as a minor form defined by its constraints rather than its possibilities Reflecting a broadly held view among critics that midcentury fiction was in crisis or decline these minor writers sought to make a virtue of what were taken to be the novel's bleak prospects crafting fictions of modest proportions and seemingly attenuated ambition that reflexively explored their own aesthetic limitations Ironically the book argues midcentury anxieties about the death of the novel breathed new life into it Blending literary criticism and intellectual history the book offers close readings of five writers who shared this curious project for the novel an account of which adds texture to our understanding of the aesthetic diversity of midcentury American literature
