The Man Question Nancy E. Dowd,2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men s privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men s treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men s experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study

of masculinities can broaden our understanding of privilege and subordination **A Select Library of the Nicene and Post-Nicene Fathers of the Christian Church, First Series, Volume 7** Philip Schaff,2022-04-21 Philip Schaff's classic work colloquially known as The Early Church Fathers is an invaluable resource filled with the primary documents and early theological building blocks for the Christian church Comprised of thirty eight volumes it is broken into three parts the Ante Nicene Fathers and Nicene and Post Nicene Fathers First and Second Series Nicene and Post-Nicene Fathers First Series, St. Augustine Philip Schaff,2007-05-01 The Council of Nicaea in 325 AD marked the beginning of a new era in Christianity For the first time doctrines were organized into a single creed The Nicene and Post Nicene Fathers did most of their writing during and after this important event in Church history Unlike the previous era of Christian writing the Nicene and Post Nicene era is dominated by a few very important and prolific writers In Volume VI of the 14 volume collected writings of the Nicenes and Post Nicenes first published between 1886 and 1889 readers will find Saint Augustines exegesis on the Gospels and the Sermon on the Mount which strove to interpret and draw meaning out of the text without incorporating the author's personal agenda or bias Also included in this volume are a selection of Augustines sermons
