Discover hidden practices secretly transmitted in authentic Zen lineages of using body speech and mind to remove obstructions to awakening Though Zen is best known for the practices of koan introspection and just sitting or shikantaza there are in fact many other practices transmitted in Zen lineages In modern practice settings students will find that Bodhidharma s words direct pointing at the human mind are little mentioned or else taken to be simply a general descriptor of Zen rather than a crucial activity within Zen practice Reversing this trend toward homogeneous and superficial understandings of Zen technique Hidden Zen presents a diverse collection of practice instructions that are transmitted orally from teacher to student unlocking a comprehensive path of awakening This book reveals and details for the first time a treasury of direct pointing and internal energy cultivation practices preserved in the Rinzai Zen tradition The twenty eight practices of direct pointing offered here illuminate one s innate clarity and ultimately the nature of mind itself Over a dozen practices of internal energetic cultivation galvanize dramatic effects on the depth of one s meditative attainment Hidden Zen affords a small taste of the richness of authentic Zen helping readers grow beyond the bounds of introspection and sitting to find awakening itself
