

TEN STEPS TO MINDFULNESS MEDITATION

Create time & space.
Choose a regular time each day for mindfulness meditation practice, ideally a quiet place free from distraction.

Set a timer.
Start with just 5 minutes and ease your way up to 15-40 minutes.

Find a comfortable sitting position.
Sit cross-legged on the floor, on the grass, or in a chair your feet flat on the ground.

Check your posture.
Sit up straight, hands in a comfortable position. Keep neck long, chin tilted slightly downward, tongue resting on roof of mouth. Relax shoulders. Close eyes or gaze downward 5-10 feet in front of you.

Take deep breaths.
Deep breathing helps settle the body and establish your presence in the space.

Direct attention to your breath.
Focus on a part of the body where the breath feels prominent: nostrils; back of throat; or diaphragm. Try not to switch focus.

Maintain attention to your breath.
As you inhale and exhale, focus on the breath. If attention wanders, return to the breath. Let go of thoughts, feelings or distractions.

Repeat steps 6-7.
For the duration of meditation session. The mind will wander. Simply acknowledge this and return to your breath.

Be kind to yourself.
Don't be upset if focus occasionally drifts or if you fall asleep. If very tired, meditate with eyes open and rearrange posture to more erect (but still relaxed) position.

Prepare for a soft landing.
When the timer goes off, keep eyes closed until you're ready to open them. Be thankful. Acknowledge your practice with gratitude.

Mindfulness in Internet and New Media Wen-Ko Chiou, Chao Liu, Hao Chen, Shuhua Zhou, 2023-10-24 Mindfulness is about being aware in a certain way being consciously aware on purpose living in the present moment without mental judgment In addition to the in depth application of mindfulness in different subdisciplines of psychology e.g. social personality clinical developmental health organizational there is also a trend toward cross fertilization with other social and behavioral disciplines e.g. design kinesiology sociology family studies education anthropology neuroscience philosophy economics medicine organizational science However the application of mindfulness in the field of communication is limited With the rapid development of the Internet and new media the study of Internet communication is growing rapidly The Internet and new media make it easy to connect with others explore a new world and regard cyberspace as an extension of one's own thoughts and personality Nevertheless when people use the Internet and new media mindless they will easily experience the social effects on their virtual selves and encounter psychological problems e.g. network morality network anxiety network pornography network addiction and cyberbullying which has become a widespread and serious problem As an important part of positive psychology mindfulness intervention has been proved to help improve a series of negative psychological states and promote positive emotions and subjective well being However what theoretical and practical contributions can mindfulness in the Internet and new media bring remains unknown Thus this Research Topic focuses on the influence and intervention of mindfulness on the psychological problems caused by the network new media communication We welcome high quality studies using a variety of research methods including quantitative qualitative mixed methods and reviews on the second generation of mindfulness interventions and other meditation based interventions e.g. focused attention meditation transcendental meditation and loving kindness meditation This Research Topic encourages

submissions that cover but are not limited to the following topics 1 The internet and new media guided mindfulness and loving kindness meditation practice 2 Mindfulness and interpersonal communication in the network network trust network security network intimacy 3 Mindfulness and network clustering behavior 4 Mindfulness and online consumer psychology 5 Mindfulness and cyber moral psychology cyberbullying cyber altruism and prosocial behavior 6 Mindfulness and online pornography 7 Mindfulness and internet addiction 8 Mindfulness and online psychological counseling 9 Mindfulness and new media anxiety

The Art and Science of Transformational Leadership Raghurami Reddy Etukuru, 2018-11-08

Transformation is a process of bringing radical change to the context that sets a new direction and takes the organization to an entirely different level of effectiveness with little to no resemblance to the past There is always a need for positive change and for transforming people s lives regardless of what has been achieved so far by the organization or the society There is always room for people to dream big think big make a difference and make an impact to bring about transformative change Transformation is required in virtually any field whether it is business technology education health care banking agriculture politics poverty reduction entertainment transportation cities or manufacturing Transforming an organization or the lives of people within a society is purely a leadership based mission that requires a creative and innovative mind set The aspects of the transformation process include purpose driven vision creativity innovation design thinking agile transformation cultural transformation digital capabilities human experience transformation and business model transformation Transformational leadership is about envisioning the future and making it brighter by way of bringing about transformative change

Transformational leaders must be courageous and empathetic Several qualities that transformational leaders need to possess in order to embrace transformation include vision creativity inspiration courage collaboration commitment empathy and emotional intelligence These aspects along with their appropriate components and subcomponents are discussed in *The Art and Science of Transformational Leadership* *Praxis Core and PLT Prep* Kaplan Test Prep, 2021-04-06 At head of title on cover and spine Kaplan
