Pro Coworking Spaces:

Coworking Spaces Janet Merkel, Dimitris Pettas, Vasilis Avdikos, 2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues. More specifically, its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work, i.e. self-employment, that leaves more and more workers exposed to precarity as they must organize and manage their own labor. Grounded in this perspective, this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice. There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and, if it is discussed, more cautionary views prevail, highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies. The aims of this collection are twofold: First, it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non-human actors as agents of change associated with coworking and the re-organization of work and labor power. And second, it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers, but also the different spatial contexts in which these spaces are situated. A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self, as in the dominant interpretations in the current research, but rather one that centers coworking in the creation of meaningful, careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change. So it is about alternative narratives, emancipation, politics, and the wider social role that coworking spaces might play in neighborhoods, cities, or beyond, because they are crucial contexts for the formation and maintenance of social relations. With this specific direction, this collection aims to bring coworking research into a fruitful dialog with other research fields, such as sociology of work, feminist perspectives on care, alternative and diverse economies, post-capitalist transformation, critical geography, positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships.

Networked Learning Lucila Carvalho, Peter Goodyear, Maarten de Laat, 2016-07-01 With the boundaries of place softened and extended by digital communications technologies learning in a networked society necessitates new distributions of activity across time space media and people and this development is no longer exclusive to formally designated spaces such as school classrooms lecture halls or research laboratories *Place based Spaces for Networked Learning* explores how qualities of physical places make both formal and informal education in a networked society possible Through a series of investigations and case studies it illuminates the structural composition and functioning of complex learning environments This book offers a wealth of key design elements and attributes for productive learning that educational designers can reuse in multiple contexts The chapters examine how places are modified expanded or supplemented by networking technologies and practices in order to create spaces in which learners can collaboratively develop new understandings connections and capabilities Utilizing a range of diverse but complementary perspectives from anthropology archaeology architecture geography psychology sociology and urban studies *Place based Spaces for Networked Learning* addresses how material places and digital spaces are understood how sense can be made of new assemblages and configurations of tasks tools and people how the real time analysis of new flows of data can inform and entertain users of a space and how access to the digital realm changes our experiences with both places and other people **The Psychological Challenges of Remote Working**

Naval Garg, Freda Van Der Walt, John Burgess, 2023-06-27 **Digital Nomads. How the era of digitalization creates alternative lifestyles** Lisa-Marie Wagner, 2020-06-18 Bachelor Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 6 language English abstract In this paper the phenomenon of digital nomadism in permanent employment is presented In general digital nomads are characterized by their independence of

location their employment in the digital space and common values Most of them are freelancers and entrepreneurs but also employees who are part of this movement want to leave the conservative concept of normal employment and break new ground First the changes in the business world and the emergence of digital nomadism were presented in this paper Due to a lack of literature guideline based expert interviews were conducted to gain insight into the opportunities and risks of the multi local lifestyle concept for employees and companies In addition the framework conditions for companies and digital nomads required by this work and life concept were examined and presented in detail Such a framework condition can mean for example the adaptation of processes and leadership There are also differences between completely remote companies and only partially remote companies which can lead to a split company structure In this context the similarities and differences between traditional telework and digital nomadism in permanent employment were also examined These are similar for example regarding the technical prerequisites that should be created in companies and the changed communication In addition there are challenges and opportunities that arise from the travel component and the nature of digital nomadism such as negatively impaired processes due to time differences or certain characteristics and experiences that digital nomads possess or experience that can be used positively in a professional context Thus this work not only serves a scientific purpose but also provides a practical framework for employing digital nomads in traditional companies

The Design of a Luxury Car Center in Bangkok Amir Kamyabi,2020-12-14 Bachelor Thesis from the year 2019 in the subject Art Architecture History of Construction course Interior Architecture language English abstract This thesis proposes a design that explores the value of experience and entertainment during servicing in order to create a more user friendly experience and satisfaction for the costumer Through exhibitions we will be able to showcase luxury car brands And the use of a gathering space and a co working and conventional space would be the base for interactions between users The car service center would be a mixed use service The thesis will utilize architectural and design techniques for more interactive spaces so that users become more familiar with the history of luxury car brands and the direction different brands are headed towards It will serve as a place of exhibition sales and services as well holding conferences to utilize the building and the hotels connected This building will act as a land mark that attract luxury users Thonburi District The Luxury Car Center will be located near the intersection of Charoen Nakhon and Rama III in order to both benefit from such a mixture of a service community and center so that other car service costumers in the area also could utilize this active space This center will act as a mixture of the past present and future A center that drives on fulfilling the needs of customers
