

R v Secretary of State for the Environment and others, ex parte Ward

QUEEN'S BENCH DIVISION (CROWN OFFICE LIST)
WOOLF J

25, 26, 27, 28 JULY, 5 OCTOBER 1983

Local authority – Caravan sites – Provision of caravan sites – Duty of local authority – Judicial review of authority's decision – Authority providing site in accordance with duty – Site provided proving unsuitable for human habitation – Authority deciding to cease to provide site and not providing alternative site – Secretary of State refusing to direct authority to comply with duty to provide site – Whether gipsy living on existing site having sufficient interest to apply for judicial review of local authority's and Secretary of State's decisions – Whether relevant that authority's area designated as area in which unauthorised camping prohibited – Whether court should grant relief – Caravan Sites Act 1968, s 6(1), 9, 12(1) – Supreme Court Act 1981, s 31(3) – RSC Ord 53, r 3(7).

A London borough leased an area of land from the Greater London Council for a term of seven years from 9 February 1976 in order to discharge the duty imposed on it by s 6(1) of the Caravan Sites Act 1968 to provide caravan sites for gipsies residing in or resorting to the borough's area. The Secretary of State then made a designation under s 12(1) of the 1968 Act that the borough's area was an area in which unauthorised camping was prohibited. Despite substantial expenditure by the borough the caravan site proved to be unsuitable for human habitation because of pollution. The borough therefore resolved to close the site on the expiry of a one-year extension of the lease and further resolved not to provide an alternative site, but made it clear that no action would be taken to evict gipsies then living on the existing site or to cut off essential services to the site such as water and electricity while they remained there. The applicant, a gipsy living on the site, applied to the Secretary of State to exercise his powers under s 9 of the 1968 Act to direct the borough to comply with its duty under s 6(1) to make adequate provision for a caravan site for gipsies. There being no immediate danger of the gipsies being evicted from the existing site or of services to the site being cut off, the Secretary of State declined to give directions under s 9, on the ground that at that stage there was no urgent need for him to do so, but he stated that he would keep the situation under review. The applicant applied under RSC Ord 53 for judicial review of the Secretary of State's failure to give directions under s 9 and of the borough's decision to cease to provide the existing site without providing an alternative site.

Held – (1) The applicant had 'a sufficient interest', within s 31(3) of the Supreme Court Act 1981 and RSC Ord 53, r 3(7), to apply under Ord 53 for judicial review of the borough's decision to discontinue providing the existing site and not to provide any alternative site for his use because (a) he was personally and directly affected by that decision, (b) the Secretary of State's designation under s 12(1) of the 1968 Act of the local authority's area as an area where unauthorised camping was prohibited did not release the authority from its duty under s 6(1) to provide camping sites for gipsies, and (c) the

State Of The World Environment 1989:

The World Environment 1972-1992 O. El-Kholy, 2012-12-06 Our planet is under siege Assaults on the atmosphere the greenhouse effect the depletion of the ozone layer and increasing air pollution pose a still unquantified threat to human life The dumping of hazardous wastes and land based sources of pollution present a similar threat to the oceans On land we are destroying a tropical forest the size of Austria every year and more than a hundred species of wild plants and animals are lost forever each day When the General Assembly of the United Nations established UNEP it charged us with reporting on the changing state of the world s environment tracking the underlying causes of change and working with governments to develop responses to those changes Every year since 1974 UNEP has produced a State of the Environment report focusing on one or more emerging environmental issues and always stressing the human factor the impact of environmental quality on people and society Three times since its inception 1982 1987 and 1992 UNEP has undertaken a more wide ranging study The results of the present study are the most disturbing of the three However not all the signs are negative Throughout the 1970s and into the 1980s UNEP was able to report progress in some important areas Environmental monitoring capacity was being rapidly improved in many parts of the world and Ministries of the Environment were being set up in an attempt to deal with environmental threats in a more coherent way

The Routledge Handbook of the Global 1980s Jonathan Davis, 2025-08-18 The 1980s was a decade of enormous global change Upheaval from the top of governments to the bottom of societies saw a new world order begin to emerge A new form of capitalism redefined global economics on both the right and left as market forces were unleashed The ideological conflict of the previous four decades petered out as superpower relations improved A more interconnected world introduced new consumer products and forms of popular culture to societies across the globe And protest movements saw new battles fought and new alliances forged in an increasingly interdependent world The Routledge Handbook of the Global 1980s brings together specialists from across the world to examine how the decade was shaped by these changes to politics economics culture societies and protest movements The Handbook is divided into five parts focusing on the global environment globalisation and neoliberalism politics and society culture and society and the closing stages of the global Cold War By taking an international approach to the history of the 1980s this book offers a wide ranging and important new perspective of this hugely transformative decade It will appeal to students and scholars alike as well as all those interested in the political social economic and cultural shifts of the 1980s

[Global Environmental Change and International Relations](#) Malory Greene, Ian Rowlands, 2016-07-27 Climate change and depletion of the ozone layer are two examples of dramatic changes in the Earth s natural environment which raise new questions in international relations The nine chapters in this book explore some of the theoretical and policy problems that are posed by global environmental change The variety of perspectives employed international relations theory international political economy international law strategic studies North South issues and Eastern Europe illustrates the complexity of the issues involved
