## **State V Burns Problems Caserev 5th:**

**The North Carolina Code of 1939** North Carolina, 1939      The American Supreme Court Robert G. McCloskey, 2010-07-15 Celebrating its fiftieth anniversary Robert McCloskey's classic work on the Supreme Court's role in constructing the U S Constitution has introduced generations of students to the workings of our nation's highest court For this new fifth edition Sanford Levinson extends McCloskey's magisterial treatment to address the Court's most recent decisions As in prior editions McCloskey's original text remains unchanged In his historical interpretation he argues that the strength of the Court has always been its sensitivity to the changing political scene as well as its reluctance to stray too far from the main currents of public sentiments In two revised chapters Levinson shows how McCloskey's approach continues to illuminate developments since 2005 including the Court's decisions in cases arising out of the War on Terror which range from issues of civil liberty to tests of executive power He also discusses the Court's skepticism regarding campaign finance regulation its affirmation of the right to bear arms and the increasingly important nomination and confirmation process of Supreme Court justices including that of the first Hispanic justice Sonia Sotomayor The best and most concise account of the Supreme Court and its place in American politics McCloskey's wonderfully readable book is an essential guide to the past present and future prospects of this institution      Corpus Juris ...
