**Approaches to Sport** Irena Martínková,Jim Parry,2013-09-13 The study of sport is often thought of simply in terms of the sport sciences This book explains how a phenomenological approach is capable of revealing the nature and meanings of sport in ways that are beyond the reach of the sciences and how the very concepts required by sport science stand in need of philosophical explanation The book has a didactic intention seeking to present and discuss ideas and tools developed in the phenomenological tradition in order to illuminate issues in sport in such a way as to be understandable for those without any previous knowledge or background There are clear and straightforward accounts of the ideas of central thinkers such as Husserl Heidegger Merleau Ponty and Pato ka and applications of central ideas to the analysis of particular issues such as the nature of risk sports the feint in football the problem of the instant replay the role of the sport psychologist the idea of bodily perception and the concept of transhumanism in relation to performance enhancement This book was originally published as a special issue of Sport Ethics and Philosophy *Información cultural* ,1986 **Dictionary of Mathematics**

Carpentier's Baroque Fiction Steve Wakefield,2004 Carpentier was one of the first novelists to introduce a version of magical realism and the neo baroque into Latin American fiction This study focuses on one of the first novelists to introduce a version of magical realism and the neo baroque into Latin American fiction Original research colours eyewitness accounts of Alejo Carpentier's travels through Spain before and during the Spanish Civil War and the inspiration that he drew from the Baroque architecture he encountered there The origins of Carpentier's uniquely baroque style are found in his endeavour to create a period ambience in his historical fictions through descriptions of visual arts and architectural settings and parodies of the literary style of Spanish Golden Age writers Medusa's gaze is used as a metaphor for the petrifying power of the Baroque as a weapon of European dominance By wielding the same weapon in an act of postcolonial defiance Carpentier enabled a reassertion of Latin American culture and laid the foundations for the 1960s Boom in the Latin American novel
