The Sherlock Holmes of Nature BBC Reams of appealing facts make one itch to get outside and right up close to trees rough surfaces and shady cover The Atlantic New York Times bestselling author Tristan Gooley opens our eyes to the secret language of trees and the natural wonders they reveal all around us Trees are keen to tell us so much They ll tell us about the land the water the people the animals the weather and time And they will tell us about their lives the good bits and bad Trees tell a story but only to those who know how to read it In *How to Read a Tree* Gooley uncovers the clues hiding in plain sight in a tree s branches and leaves its bark buds and flowers even its stump Leaves with a pale central streak mean that water is nearby Young low growing branches show that a tree is struggling And reddish or purple bark signals new growth Like snowflakes no two trees are exactly the same Every difference reveals the epic story this tree has lived if we stop to look closely
