Rock,2017-05-25 The ancient rhythm of night becoming day becoming night again has always set the tempo of our everyday
lives The daily spin and tilt of the Earth rules our clocks and calendars as well as our human bodies Yet our minutes and
hours and days all too often slip away completely unnoticed For generations and cultures around the globe and across the
ages though the moments surrounding sunrise and sunset have been noticeable exceptions believers and seekers have long
gathered in the gloaming to pause and reflect on the notion that the sacred unfolds if it unfolds anywhere in ordinary time In
Time Twilight and Eternity Thom Rock explores the rich tradition of that unfolding not only through the physics and optics of
any twilight hour or rising or setting sun but also through the whispered prayers of so many faith traditions An unforgettable
journey through the mysteries and wonders of dusk and dawn as well as the extraordinary gifts of common prayer ordinary
