The Routledge International Handbook of Contemporary Racisms brings together thirty-four original chapters from international experts that address key features of contemporary racism. The Handbook has a truly global orientation and covers contemporary racism in both the western and non-western geopolitical environments. In terms of structure, the volume is organized into ten interlinked parts that include Theories and Histories of Contemporary Racism, Racism and the State, Racist Movements and Ideologies, Anti-Racism, Racism and Nationalism, Intersections of Race and Gender, Racism, Culture and Religion, Methods of Studying Contemporary Racism, and The End of Racism. These parts contain chapters that draw on original theoretical and empirical research to address the evolution and changing forms of contemporary racism. The Handbook is framed by a General Introduction and by short introductions to each part that provide an overview of key themes and concerns. Written in a clear and direct style and from a conceptual, multidisciplinary, and international perspective, the Handbook will provide students, scholars, and practitioners with an overview of the most pressing issues of racism in our time.

A (Very Brief) History of Systemic Racism: a Glimpse into Oppression, Inequity, and Inequality of Black People in the United States of America Chris Valentine, 2020-09-22. Racism has no place in the world and everyone knows it's not okay. Why then is racism still a part of people's experiences? Why are protests and demonstrations happening? Why is there even a conversation about Black Lives Matter? Racism is not a partisan issue and this is not a political book; it's a history book. The fact is that racism has been built into the very foundations of this country, from employment to housing and education to criminal justice. A very brief History of Systemic Racism looks at hundreds of years of institutional and structural racism, breaking it down into a concise series of events, laws, restrictions, policies, and practices that have led to where we are today. The journey toward anti-racism begins by arming yourself with information and understanding the history of oppression, inequity, and inequality of Black people in the U.S., and this book will give you a strong basal knowledge of systemic racism in this country. Racist Stereotypes in Childish Gambino's song "This is America": Reproduction or Dismantling? Jessica Meier, 2023-01-18. Bachelor Thesis from the year 2022 in the subject American Studies, Culture and Applied Geography, grade 1.7, University of Koblenz-Landau, Anglistik, language English, abstract. This thesis poses the research question: whether Donald Glover reproduces or dismantles racial stereotypes in the music video "This is America." In order to get to the root of this question, one must first understand the concept of racism and the purpose racism fulfills in the social system of the United States. Then, the racist stereotypes need to be elaborated because they are only visible and perceptible when known. Because of the male-biased gender statistics and the fact that Donald Glover as a Black man is the main protagonist of the video, the representation of Black masculinity is an

interesting additional aspect to be illuminated especially regarding the hip hop genre of the song In the analysis the music video is examined based on the semiotic approach and the theoretical foundation Finally a conclusion to the research question is drawn based on the multifaceted results A music video that can hardly be surpassed in semiotic richness is This is America by Donald Glover released under his pseudonym Childish Gambino The music video tackles gun violence systemic racism slavery and juxtaposes jaunty images of dancing school children with shocking scenes of Gambino shooting a black man and gunning down a black choir While the music video features the aforementioned racist stereotypes the effect on the viewer is peculiar The video has provoked a strong social reaction and has been highly discussed in the media after the death of George Floyd in May 2020 and the resulting protests the song has become the anthem for people posting footage of the protests on TikTok Until January 2021 the video was watched 750 776 033 times vinyl records of the song are sold for 418 on eBay The topic and therefore the video itself has not lost significance today and goes on like the echo of a disturbing American history The song has become a worldwide phenomenon following numerous analysis and interpretations of the innumerable obvious and unapparent images and this thesis does not foresee to reproduce such an analysis but to take a closer look at the racist stereotypes the video alludes to and on how they are used Many of the stereotypes elaborated by Bogle 2016 as well as more generalized attributions of black masculinity in hip hop culture are represented in the video but differ strongly from typical music videos in this genre in the widespread reception which leads to the question of how stereotypes are embedded here
