The Taboo Spy Walter Flohr, 1989-11-28 Bored with her marriage senior CIA officer Madge Feuer begins an affair with a handsome young Jamaican military officer unaware that the Soviets intend to use her illicit liaison in a bloody ruthless bid for power

Counterfeit Spies Oliver Buckton, 2024-10-01 This book explores the fascinating influence of intelligence work during World War II on spy fiction as well as the important roles many spy novelists played during the war and the sustained influence of spy fiction on intelligence operations after World War II and during the Cold War

The Private Life of the Genome Iain Brassington, 2023-05-17 This innovative and engaging book argues that because our genetic information is directly linked to the genetic information of others it is impossible to assert a right to privacy in the same way that we can in other areas of life This position throws up questions around access to sensitive data It suggests that we may have to abandon certain intuitions about who may access our genetic information and it raises concerns about discrimination against people with certain genetic characteristics But the author asserts that regulating access to genetic information requires a more nuanced perspective that does not rely on the familiar language of rights The book proposes new ways in which we may think about who has access to what genetic information and on what basis they do so Conceptually challenging the book will prove engaging reading for scholars and students interested in the area of bioethics and medical law as well as policy makers working with these pressing issues

Spies in European Culture, 1815-1914 Laura Di Fiore, Elisabetta Abignente, 2025-01-23 This volume brings together academics from the USA and across Europe to examine the nature representations and perceptions of the figure of the spy in Europe between 1815 and 1914 As such it is the first scholarly investigation of the genesis both of contemporary espionage and of the cultural imagination associated with it *Spies in European Culture 1815 1914* sheds light on the founding moment of espionage and the use of secrecy in politics in the contemporary age It successfully argues that the 19th century saw the development of a cultural historical process in which disruptive novelties like the disguise the secret and the double identity simultaneously assailed the spheres of the state the self and the imaginary ushering in distinctive features of society in the modern era in the process This global phenomenon in which state and society but also reality and fiction were profoundly intertwined is therefore investigated by means of a transdisciplinary analysis that considers both the politico institutional and the cultural planes that existed at the time

Questions Henry Hiž,1978-01-31 To the philosopher the logician and the linguist questions have a special fascination The two main views of language that it describes the world and that it expresses thought are not directly applicable to questions Questions are not assertions A question may be apt sharp to the point important or it may be inappropriate ambiguous awkward irrelevant or irreverent But it cannot be true or false It does not have a truth value not just because an utterance like Was the letter long does not indicate which letter is being talked about The indicative The letter was not long has the same indeterminacy In actual context the anaphoric definite article will be resolved both for a question and for an indicative sentence Contextual resolutions are easily found for most cross references A question cannot be either true or it does not describe a state of affairs Neither does it express false because thought because it is an expression of suspended thought of lack of judgment To dress it in other philosophical styles a question is not a judgment it is not a proposition it is not an assertion A philosopher may try to paraphrase a question as an indicative sentence for instance as a statement of ignorance or as a statement of the desire to know Hintikka Wachowicz and Lang explore this territory Or he may interpret it as a meta statement intimating the direction in which the flow of the discourse is going For the Time Being Marie DesJardin,1997 In this quirky sci fi adventure twelve graduate level MENSA gifted misfits set out one night to explore a set of steam tunnels beneath their school and end up being captured by aliens and transported by space ship to another planet
