Their involvement was basically a practical rather than a theoretical one. In order to preach and convert it was necessary to speak Chinese. A missionary on post needed to learn at least two languages: the national Guanhua, the language of the officials or Mandarin, and the local vernacular. The first lexicographical work by missionaries was a Portuguese-Chinese dictionary compiled in the late 1500s by Francisco Varo. In 1627-1687 a Spanish Dominican based in the province of Fujian was legendary for his superb mastery in Mandarin. His *Vocabulario de la Lengua Mandarina*, a Spanish-Chinese dictionary, is made available to modern readers in the present study, which is based on two manuscripts held in Berlin and London. Volume 1 contains the text of Varo's glossary with English translations offered for all Spanish glosses and Chinese characters added for all Chinese forms. Volume 2 includes a pinyin index to all Chinese forms in the text and a selective index to the English translations of the Chinese glosses. The *Vocabulario* is mainly devoted to the spoken language but includes literary forms as well. Varo was also sensitive to other matters of usage, e.g. questions of style, new expressions coined by the missionaries, specific expressions in Chinese and in European culture, Chinese customs and beliefs, and aspects of grammar. The *Vocabulario* is recommended for readers interested in Chinese linguistics, lexicography, Sino-Western cultural relations, and the history of Christianity in China.

Batchelor, Miguel Ángel San José, 2003-08-07. This book first published in 2003 provides a comprehensive and structured vocabulary for all levels of undergraduate Spanish courses. It offers a broad coverage of the concrete and abstract vocabulary relating to the physical, cultural, social, commercial and political environment, as well as exposure to commonly encountered technical vocabulary. The accompanying exercises for private study and classroom use are designed to promote precision and awareness of nuance and register, develop good dictionary use and encourage effective learning. The book includes both Iberian and Latin American vocabulary and clearly identifies differences between the two varieties. Consists of twenty units, each treating a different area of human experience. Units are divided into three levels, which allows core vocabulary in each area to be learned first and more specialised or complex terms to be added at later stages. Vocabulary is presented in alphabetical order for ease of location.      **Spiritual Canticle** Saint John of the Cross, 1961.
