information about the men and women who produced English language translations Arranged alphabetically by surname  
each of the 346 entries includes biographical and vocational information notes on the various editions produced samples of  
their translation and other pertinent facts In cases where translations were done by committee the chairpersons and project

of biblical study topics including Bible translations in English and other languages audio translations of the Bible in English  
and other languages commentaries dictionaries and other resource materials including ones in Greek Hebrew and other  
ancient languages The author also has adopted a new method of referencing and cataloging the most widely used web pages  
to facilitate a major expansion of resources without increasing the physical length of the book itself In cases when ten or  
more resources are listed on a single web page the author has assigned the web page a three digit code The code is used to  
identify this web page as a major resource within the main text while any needed instructions for use of the site are cross
