**Taiwan** John F Copper,2003-01-23 In the fourth edition of Taiwan Nation State or Province Professor Copper examines Taiwan s geography and history its society and culture its economy its political system and its foreign and security policies in the context of Taiwan s uncertain political status whether a sovereign nation or a province of the People s Republic of China Copper argues that Taiwan s very rapid and successful democratization while leaders in Beijing oppose democratic change suggests Taiwan should be independent and separate from China increasingly important economic links between Taiwan and China says the opposite Professor Copper argues that exacerbating this problem Washington and Beijing espouse opposing policies regarding resolution of the Taiwan issue and that has made the Taiwan Strait the world s number one flashpoint place where major powers collide and where war using weapons of mass destruction may be used This matter has been recently been given further salience by the shift of political power to Chen Shui bian who was elected president in 2000 and the victory of his opposition party which has long advocated an independent Taiwan in the 2001 legislative election and by America s growing perception of a China danger and concern about Beijing s military expansion that is in large part aimed at Taiwan Taiwan Nation State or Province is unlike other books of this genre pursues the theme of Taiwan s unique status and seeks to gauge its future as one of the world s vortex political entities **TAIWAN JOHN F. COPPER,2019-06-14**

State Sovereignty E. Kurtulus,2005-11-26 State sovereignty is the foundation of international relations This thought provoking book explores the gap between seeing sovereignty as either absolute or relative It argues that state sovereignty is both factual and judicial and that the loss of sovereignty exists only at the margins of the international society With many interesting real world examples of ambiguous sovereignty examined this is an important argument against those who are quick to claim that sovereignty is under assault **Taiwan: National Identity and Democratization** Alan M.

Wachman,2016-09-16 Taiwan has become a democracy despite the inability of its political elite to agree on the national identity of the state This is a study of the history of democratisation in the light of the national identity problem based on interviews with leading figures in the KMT and opposition parties **Taiwan's Politics In Action: Struggling To Win At The Ballot Box** John F Copper,2020-11-13 Taiwan's Politics in Action Struggling to Win at the Ballot Box is about the most interesting and exciting aspects of Taiwan's politics political competition in the form of electioneering campaigns and voting The author first analyzes the theories constructs or simply ideas about elections especially who wins them and why The most discussed by the pundits and the scholars are the watermelon and the pendulum theory voting as before or not The economic or pocketbook theory is also popular although whether this means economic growth or greater equity has changed Which

party or candidate has the most money is also predictive Other constructs or simply ideas are also commonplace Divide and conquer is another approach Another is the best campaign agenda so too picking the most attractive candidates Professionalism in campaigning and the use of social media are also favorite ideas So is the appeal to voters ethnicity espousing liberal or conservative ideas using protest focusing on constant concerns such as peace and corruption and finally the appeals of populism and progressivism The author then examines Taiwan's two most recent elections the 2018 mid term or collection of local elections and the 2020 national presidential and legislative election to apply the theories The Nationalist Party or Kuomintang KMT won the former the Democratic Progressive Party DPP won the latter giving the observer a choice of evidence about how to win The author concludes that Taiwan's democracy is being challenged but is still popular in spite of strong external forces and other worries

**Taiwan's Mid-1990s Elections** John F. Copper, 1998-10-28 An assessment of the recent unprecedented Taiwanese democratic elections which despite threats from Beijing set the stage for genuine democracy in Taiwan A firsthand account of three crucial elections in the 1990s two of which were unprecedented the 1994 election of the first governor of Taiwan and the 1996 presidential election The latter marked the first direct election of a chief executive in Taiwan or any Chinese nation in 5 000 years of Chinese history This study considers the political environment in which these elections were held particular political issues party strategies and campaigns and election results Taiwan is now in the final stage of democracy and its impressive political modernization is one proof of its new status The 1995 legislative election and the 1996 presidential election were held amidst Beijing's intimidation in the form of missile tests close to Taiwan's shores massive military exercises and verbal threats Such posturing forced the United States to send aircraft carriers to the area in response Taiwan's remarkable progress has begun to draw the attention of the leaders of developing countries who have come to see

Taiwan's political modernization as a model for their own nations      **Consolidating Taiwan's Democracy** John Copper, 2005-01-06 Consolidating Taiwan's Democracy assesses the often heard argument that political change in Taiwan especially that resulting from recent elections that brought a change of ruling parties first in the executive branch of government and then the legislative branch proves that Taiwan's democratization has been finalized or consolidated The author sees both positive and negative aspects to democracy's consolidation in Taiwan      **Nations Without States** James Minahan, 1996-01-19 Alphabetically arranged survey of 210 little known nations that are not states and are not recognized by major countries as being independent political entities Each entry is three pages in length and includes a map of the locale a black and white drawing of the flag with text description data on population geography and the inhabitants and a longer passage on the history of the people and especially on recent attempts at independence or self government followed by a bibliography      **Nationalism, National Identity and Democratization in China** Baogang He, 2018-05-08 This title was first published in 2000 This text aims to provide a clear understanding of the complex relationship that exists between nationalism national identity the state the direction and trend of China's transition and the subsequent prospects for democratization While describing the rise of Chinese nationalism and the accompanying discourse on Chinese national identity it focuses on the national identity question and its impact on democratization The text argues that Chinese nationalism is not monolithic and that popular Chinese nationalism attempts to exclude the role of the party state in defining national identity Most importantly it has the potential to demand democratic reform and push for democratization in China Nevertheless the alliance between nationalism and democracy will expedient Chinese nationalism whether official or popular comes into conflict with democracy when it confronts the national identity boundary problem They clash with each other where territoriality is involved The Chinese nationalist solution to the problem is logically and inherently opposed to the contemporary trend towards democracy      **Third World Resource Directory, 1994-1995** Thomas P. Fenton, Mary J. Heffron, 1994 Topics covered include children and youth drugs education environment foreign policy health hunger indigenous people migration and immigration population rainforests tourism and women      **The Encyclopedia Americana**, 1999 A thirty volume encyclopedia covering important world events while providing major new treatments of selected topics in various academic fields      **China Review International**, 1997
