

TAKING CARE OF OUR EARTH

PowerPoint Presentation

REUSE

Reuse means to use something again for another purpose instead of throwing it out and making garbage. We can reuse by:

- Using glass or aluminum water bottles instead of buying plastic bottles of water
- Using cloth grocery bags instead of paper or plastic
- Using lunch boxes instead of paper bags
- Donating old clothes and toys
- Donating used books to a local library

REDUCE

Reduce means to use less of something and do so when we need it. We have less garbage and waste on our Earth. We can reduce:

- Turning off the lights when we need them on
- Turning off the faucet when we are done
- Recycling things with care and using less paper

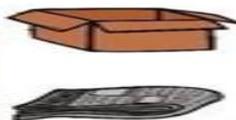

PLANT A TREE

Trees are important. They give us oxygen and help keep the air clean. Many trees are cut down for timber and to clear land for homes. It is important to replace the trees that are cut down.

PAPER

Paper can be recycled. Used paper can go to paper factories. The paper is shredded and made into a substance called pulp by pulling apart the fibers in the paper. New paper is made from the pulp.

COMPOST

Compost is an alternative to throwing food and paper away. When we throw things in the garbage, it ends up in a landfill. Landfills are not good for our planet. Compost is when we mix

Doing Ethics In A Diverse World Robert Traer,2018-05-04 Nothing is more difficult today than deciding what to do about abortion gay marriage economic injustice war torture global warming euthanasia capital punishment and a host of other controversies particularly in a world in which people of varying religious cultural and ethnic backgrounds commonly live side by side Can we draw on the wisdom of the past to address these contemporary ethical dilemmas Can we see more clearly how we should consider what is right and wrong and good and bad and then work through these divisive problems toward decisions that make sense to us While challenging moral relativism *Doing Ethics in a Diverse World* uses a pluralist approach that draws on religious as well as secular positions and on Eastern as well as Western traditions The book s approach reasons by analogy from the rule of law including international human rights law as a means to constructing ethical presumptions about duty character relationships and rights These presumptions are weighed against the predicted consequences of acting on them which either confirm the presumptions or support alternative actions
