Terrorism And The Media:

Terrorism and the Media Brigitte Lebens Nacos,1994 Exploring the recent increase in anti American terrorism this updated study argues that terrorist groups are now exploiting the link between the media and public opinion polls particularly regarding the popularity of American presidents in order to publ **Terrorism and the media** Marthoz, Jean Paul,2017-03-20 **Terrorism and the Press** Brooke Barnett,Amy Reynolds,2009 Many books have been written about the press and terrorism particularly since September 11th but this is the first press focused exploration of their relationship Drawing upon the history of terrorism mass communication research media theory and journalism practice this book examines how the press reports terrorism and how that reporting varies depending on the medium and location Examining the differences in reporting globally and historically within different media and government systems Terrorism and the Press provides insights for how in the future we can better navigate the relationship between the press government and audience when terrorists attack Conflict, Terrorism and the Media in Asia Benjamin Cole,2006-09-27 There are many different kinds of sub national conflicts across Asia with a variety of causes but since September 11 2001 these have been increasingly portrayed as part of the global terrorist threat to be dealt with by the War on Terror This major new study examines a wide range of such conflicts showing how despite their significant differences they share the role of the media as interlocutor and exploring how the media exercises this role The book raises a number of issues concerning how the media report different forms of political violence and conflict including issues of impartiality in the media s relations with governments and insurgents and how the focus on the War on Terror has led to some forms of violence notably those employed by states for political purposes to be overlooked As the issue of international terrorism remains one of the most pressing issues of the modern day this is a significant and important book which will interest the general reader and scholars from all disciplines

Terrorism and Modern Literature Alex Houen,2002-09-12 Is terrorism s violence essentially symbolic Does it impact on culture primarily through the media What kinds of performative effect do the various discourses surrounding terrorism have Such questions have not only become increasingly important in terrorism studies they have also been concerns for many literary writers This book is the first extensive study of modern literature s engagement with terrorism Ranging from the 1880s to the 1980s the terrorism examined is as diverse as the literary writings on it chapters include discussions of Joseph Conrad s novels on Anarchism and Russian Nihilism Wyndham Lewis s avant garde responses to Syndicalism and the militant Suffragettes Ezra Pound s poetic entanglement with Segregationist violence Walter Abish s fictions about West German urban guerrillas and Seamus Heaney s and Ciaran Carson s poems on the Troubles in Northern Ireland In each instance Alex Houen explores how the literary writer figures clashes or collusions between terrorist violence and discursive performativity What is revealed is that writing on terrorism has frequently involved refiguring the force of literature itself In terrorism studies the cultural impact of terrorism has often been accounted for with rigid structural theories of its discursive roots But

what about the performative effects of violence on discourse Addressing the issue of this mutual contagion Terrorism and Modern Literature shows that the mediation and effects of terrorism have been historically variable Referring to a variety of sources in addition to the literature newspaper and journal articles legislation letters manifestos the book shows how terrorism and the literature on it have been embroiled in wider cultural fields The result is not just a timely intervention in debates about terrorism s performativity Drawing on literary critical theory and philosophy it is also a major contribution to debates about the historical and political dimensions of modernist and postmodernist literary practices

Mass-mediated Terrorism Brigitte Lebens Nacos,2002 This work explores the use of political violence for the sake of publicity and its effect on political decision making She offers a blueprint both for effective public information and media relations during terrorism crises as well as for ethical news coverage of major terrorist incidents

Terrorism and the media D. L. Paletz,1992 Terrorism and the Media Richard Latter,Wilton Park (Organisation),1990 Based on Wilton Park Conference 316 11 15 January 1988 Terrorism and the Media David L. Paletz,Alex Peter Schmid,1992-03-30 An immensely readable collection of perspectives on the relationship between insurgent terrorism and the media which is long overdue and which sets the standard for future investigation in an area almost devoid of objective review This is a powerful collection of essays partly due to the sense the reviewer has that editors Paletz and Schmid approached their subject with almost missionary zeal This is not to say that they lack intellectual rigour they most certainly do not but their style together with that of their contributors reflects a real commitment to set the academic pace If I were a professor I would tell my students to read Terrorism and the Media when they weren t listening to me No one could wish for a better perspective than that The Journal of Contingencies and research rather than intuition backs up the contributors judgments Brendan O Leary London School of Economics Terrorism and the Media is an unusual important and thoughtful collaboration by two major authorities in different fields terrorism and media studies It s the most comprehensive overview available that discusses the experiences of all participants David C Rapoport University of California Los Angeles Editor Terrorism and Political Violence This is a long awaited book It is a unique collection of studies and reviews of different perspectives on the media terrorism nexus It includes the perspectives of the terrorists the governments the media the victims and the researchers It combines excellent reviews of the studies conducted in this area with some original data and analysis This is a comprehensive and interesting book that covers the many facets of mass mediated terrorism including a critical review of the assumptions and approaches guiding researchers in this value laden area Gabriel Weimann University of Haifa Israel Much of the literature on terrorism and the media is based on anecdotal impressionistic and even propagandistic treatments The editors of this pioneering effort attempt to remedy this shortcoming by assembling authorities from different academic disciplines including journalism who have explored the topic more systematically The result is a data filled yet interesting account of the views of terrorists obtained through memoirs and interviews broadcasting organizations

journalists editors the public and the victims gathered by questionnaires interviews and journalistic techniques Highly recommended Choice Terrorism and the Media is a valuable book on a topic that has received much attention in the last 20 years It should prove useful to scholars who work in this area Journalism Quarterly Terrorism and the Media is the first book to present the diverse perspectives of those involved with terrorism and the media researchers terrorists government broadcasting organizations editors reporters the public and the victims The book is based on original material gathered from terrorists spokespersons and writings as well as on questionnaire responses from broadcasters and editors additionally the book contains a reporter s personal account includes a comprehensive interpretation of opinion polls and analyzes the experiences of victims It also features a definitive categorization and assessment of the literature on terrorism Highly regarded for their previous work in this area the contributors scrutinize such key issues as freedom of the press codes of ethics intimidation victimization and censorship Thoughtful and thought provoking Terrorism and the Media will appeal to scholars and students in political science communication studies journalism and international relations Terrorism and the Media Arda Bilgen,2012 Recent history specifically the past decade has provided plenty of examples of the mutually beneficial relationship between terrorist organizations and the media It is by and large the case that the architects of terrorism exploit the media for the benefit of their operational efficiency information gathering recruitment fund raising and propaganda schemes Whether it is the relatively inconsequential arson by an amateurish environmental group or mass destruction by a network of terrorists the perpetrators media related goals are the same attention recognition and perhaps even a degree of respectability and legitimacy in their various publics Media in return receives the attention of the public that is vital for its existence and benefits from record sales and huge audiences To put it briefly just as terrorism has to be communicated to have effect the media has to cover the incidents in such a way to benefit from the public s eagerness to obtain information about terrorist attacks It is therefore fair to argue that there is a mutually beneficial relationship between terrorism and today s media Paragraph 1 *Terrorism and the American Response* Alvin H. Buckelew,1984

International Terrorism and Political Crimes M. Cherif Bassiouni,1974 **Terrorism and the Media** Michael Jetter,2014 This paper systematically analyzes media attention devoted to terrorist attacks worldwide between 1998 and 2012 Several aspects are related to predicting media attention First suicide missions receive significantly more coverage which could explain their increased popularity among terrorist groups This result is further supported by Oaxaca Blinder decompositions suggesting that it is not the particular characteristics of suicide attacks e g more casualties that are driving heightened media attention Second less attention is devoted to attacks in countries located further away from the US Third acts of terror in countries governed by leftist administrations draw more coverage However this finding is not confirmed for suicide attacks conducted in countries ruled by leftist administrations Fourth the more a country trades with the US the more media coverage an attack in that country receives Finally media attention of any terror attack is both predictive of the

likelihood of another strike in the affected country within seven days time and of a reduced interval until the next attack

Media Coverage and Political Terrorists Richard W. Schaffert, 1992-06-30 This book studies what has generally been regarded as intangible the relationship between news media coverage and terrorist success Utilizing his four year database of barricade and hostage and hijacking atrocities by international terrorists and the coverage afforded those events by newspapers from three Western nations Germany Great Britain and the United States Richard W Schaffert observes the effect of media coverage newspaper column space provided articles and photographs published on whether concessions were made to terrorist demands and establishes a strong positive relationship between coverage and terrorist success In Chapter 1 Schaffert establishes a definition of political terrorism by identifying the basic elements that distinguish it from other forms of political violence then rigorously applies this definition throughout his analysis The functions of political terrorism are reviewed with special consideration given to the use of terrorism as an instrument of politics Schaffert evaluates state experiences with political terrorism in terms of the nature of the threat countermeasures employed the media s role and the relationship between public press and government Finally the question of the responsibility of a democratic society s media in the reporting of terrorism is considered Schaffert s extensive database which is included as an appendix will prove invaluable for further research in the area

The Rhetoric of Terrorism and Counterterrorism Richard Leeman, 1991-01-21 Using the responses of the Reagan and Nixon administrations to terrorism as case studies this treatise prescribes democratic rhetoric as the most strategic counterterrorist response available

Terrorism Yonah Alexander, 1989

Psycho-political Aspects of Suicide Warriors, Terrorism, and Martyrdom Jamshid A. Marvasti, 2008 In this book there is no intention to bury or to praise suicide bombers Instead the text explores the controversy regarding the double standards prejudice and distortion with the concepts of suicide bombers warriors terrorism and martyrdom Frequently the eyes of the beholders and the political religious orientation and loyalties to one s tribe color what someone perceives For example if you carry a bomb in your hand you are called a terrorist but if an F 16 carries bombs and kills civilians the pilot could be labeled a war hero or freedom fighter The contributors of this volume explore the controversial definitions of war crimes and terrorism from both sides eventually declaring that although news and history are written by both the victor and the loser the victor s media has more influence and dominance Major motivational elements for suicide bombers are identified as occupation invasion of the homeland psychic trauma and dissociation religion poverty perceived injustice shame and despair rage and revenge and cultural support The contributors further explore state sponsored terrorism the limiting of civil liberties and the psychological impact of war and terrorism on civilians Israeli and Palestinian children and western leaders A psychological autopsy of suicide bombers and the uniqueness of female participants as well as the failure of counterterrorism are discussed Research on the characteristics of homegrown worriers and warriors in the western Muslim population is presented Finally the inclusion of treatment methods of

psychopharmacology and psychotherapy for traumatized victims of violence help give the reader a broad perspective of the future impact of this very complex topic

Mass-Mediated Terrorism Brigitte Nacos, 2002-09-18 Osama bin Laden Al Qaeda and their associates wrote a new chapter in the annals of terrorism on September 11 with the most lethal acts of political violence to date Although the magnitude of the actions was unprecedented the role of mass media in this terrorist scheme was as central as ever This in depth look at mass mediated terrorism and political violence shows how terrorists exploit global media networks and information highways to carry news of their violence along with propaganda of the deed To what extent are the media advancing or obstructing the propaganda and policy goals of terrorists and their targets Has the Internet strengthened the hands of terrorists to organize recruit and spread propaganda How have targets of terrorism used the media to manipulate public opinion and advance their own agendas From U S cases like 9 11 Oklahoma City and acts of ecoterrorists to incidents abroad like Palestinian suicide bombings in Israel European hostages held in the Philippines and violent protests at major international summits Nacos explores the use of political violence for the sake of publicity media coverage of counterterrorism policies and its affect on political decisionmaking and the impact of new media She offers a blueprint both for effective public information and media relations during terrorism crises as well as for ethical news coverage of major terrorism incidents

Terrorism and Counterterrorism: Understanding the New Security Environment, Readings and Interpretations, Revised & Updated 2004 (Trade Edition) Russell Howard, Reid Sawyer, 2003-09-30 Analyzes the philosophical political and religious roots of terrorist activities around the world This work also deals with past present and future national and international responses to and defenses against terrorism It also debates the practical political ethical and moral questions raised by military and non military responses
