Test Taking:

Mastering the Art of Test Taking Dr. D. Barnes, 2012 Like many struggling students you're convinced there's nothing you can do to improve test taking strategies or avoid the embarrassment of retaking a class. D. Barnes guides those who struggle with studying and passing tests into test taking experts. She knows exactly what it takes to transform your study skills, boost your test taking confidence, and ace any exam. She has test taking tips for people returning to school after years in the work force, high school students, college students, etc. Through comprehensive test taking pointers and specific study guidance, you'll learn how to prepare for a test the right way and how to become a great student. *Successful Test-taking*

Marian B. Sides, Nancy Korchek, 1998 Your students will love this essential review book. It will familiarize them with every aspect of successful test taking and will help to refine skills and build confidence for certification examinations. The text emphasizes learning styles, test taking preparation and strategies, and cognitive skill development. Nursing concepts and principles that can be applied to many content areas are included, as are sample tests with answers and rationale. The authors use thought provoking and entertaining language to involve and interest the reader, constantly reinforcing concepts with exercises and the creative use of repetition. New in the third edition: Reorganization of material on study skills; 3 new chapters on Comfort, Critical Thinking, and Child Health; and all chapters have new Reasoning Exercises and questions. Classroom Testing and Assessment for ALL Students

Attacking the Standardized Exam Ronald S. Thompson,2011-09-16 I have spent the better part of the last 53 years taking well over a thousand multiple choice tests As a teenager I struggled through high school Armed with an average IQ and some fairly significant learning disabilities I barely graduating with a 1.4 grade point average However I was smart enough to figure out early on that much of academics and that achieving success in academics had far more to do with the ability to master multiple choice tests than raw intellect From there I began a 35 year study on the art and science of passing mastering and scoring high on multiple choice tests Despite a very substandard high school GPA I scored high enough on the SAT and the ACT to be accepted to the University of Michigan one of the top academic institutions in the Country Upon

graduation from college I accepted a commission as an officer in the United States Marine Corps As a Marine Officer I completed dozens of military and civilian schools including a Masters Degree from Boston University and a Juris Doctor Degree from the University of Detroit School of Law In fact I earned a full ride military scholarship to law school based primarily on the fact I scored so highly on the Law School Aptitude Test 98th percentile Upon completion of law school I passed the Michigan Bar exam on the first attempt scoring 149 points on the multistate the multiple choice portion of the exam which was one question away from automatic passage at 150 they examiners do not need to grade the essay portion I have also taken and applied many of the Marine Corps concepts of discipline and mental toughness to the art of preparing for taking and passing multiple choice tests Resigning my commission and leaving the Marine Corps in 1990 I continued both my education as well as honing my test taking skills I currently hold 12 professional licenses and 5 professional designations which required me to pass several comprehensive and difficult multiple choice examinations I have also attended dozens of professional test preparation courses From those courses I have cherry picked all of the valuable lessons and test taking tips and have included those in this book One of the professional licenses I hold is a paramedic license As a paramedic I have gained a much greater understanding of the anatomy and physiology of test taking Test taking is all about the central nervous system which of course includes the brain However as I explain in this book it is clear that the sympathetic and parasympathetic nervous systems have as much to do with passing and failing multiple choice tests as does the brain Accordingly I have also applied many of those principals in this book
